Skills

Frontend	JavaScript, HTML/CSS, Bootstrap, React, Redux, Material UI, Next.js	AI/ML	Generative AI, LangChain
Backend	Node.js, Express.js, MongoDB, PostgreSQL, Firebase, Supabase	Payments	Stripe
Cloud	AWS (S3 Storage, Lambda, EC2 Servers, SNS), Docker	Authentication	JWT, Firebase, OAuth, Bcrypt
		Tools	Git, Docker, CI/CD, Postman, MongoDB Compass, Studio 3T, VS Code, Sublime Merge, Asana, GitHub

Experience

LCNC Technologies Private Limited

Full Stack Developer

August 2023 – Present

Noida, India

- Developed key features for Drapcode, enhancing user engagement.
- Collaborated with cross-functional teams to translate requirements into scalable solutions.
- Utilized MERN stack to ensure high performance and reliability.
- Contributed to product roadmap planning and technical feasibility assessments.
- Optimized system performance to enhance scalability and stability.

HardCipher Private Limited

Full Stack Developer

2022 – 2023

Noida, India

- Led MERN stack projects, ensuring seamless integration for dynamic web applications.
- Developed scalable server-side solutions with Node.js and Express.js, optimizing performance.
- Collaborated cross-functionally to deliver user-centric solutions, meeting client deadlines.
- Designed intuitive user interfaces with React, Redux, Firebase, and Supabase, enhancing user experience.
- Contributed to code reviews and troubleshooting, ensuring high-quality, efficient code.

Masai School

Full Stack Web Development Training

2021 – 2022

Bangalore, India

- Completed a rigorous 9-month program focused on full-stack development.
- Gained hands-on experience in building scalable web applications using the MERN stack.
- Developed projects that emphasized real-world application of coding concepts.

Personal Projects

CryptoTracker

React, Node.js, Express.js, MongoDB, Firebase, Material UI, Cloudinary

- Developed a sleek and user-friendly React web application for real-time cryptocurrency price tracking.
- Implemented features like JWT-based signup/login, CRUD operations, and a watchlist for favorite cryptocurrencies.
- Integrated real-time price updates and multiple currency formats (USD, INR).

HotStar-Clone

React, Node.js, Express.js, MongoDB, Firebase

- Developed a full-stack clone of HotStar, a popular streaming service, as a personal project.
- Implemented user authentication, video streaming, and a responsive UI.
- Deployed the application on cloud platforms, ensuring high availability and scalability.

Education

Ayodhya Prasad Mishra Mahavidyalay, Kanpur University

Bachelor of Science

2020 – 2023

Unnao, India

Masai School

Full Stack Web Development Course

2021 – 2022

Online
