## Frontend Developer

### SUMMARY

A highly skilled Frontend Developer with 1.5 years of experience specializing in building dynamic and responsive web applications using JavaScript, React, Next.js, TypeScript, and Redux. Proficient in developing exceptional user interfaces, translating wireframes into high-quality, responsive code, and solving complex problems to deliver efficient, scalable solutions.

### TECHNICAL SKILLS

Core Skills	React, TypeScript, JavaScript, Redux, Next.js, Jest, HTML, CSS/SCSS, Tailwind-CSS, Responsive Design
Supporting Skills	Node.js, Express.js, MongoDB
Tools	Git, JIRA, Postman, Docker

### WORK EXPERIENCE

#### 1. Deloitte, India | Analyst (Frontend Developer)

June 2023 – Present

##### Project – Caterpillar PCC HCL Commerce

- Developed and optimized a modern web application using React, Next.js, TypeScript to create responsive and dynamic user interfaces.
- Utilized pre-built components from Storybook ensuring consistent UI design and accelerating development by integrating reusable, tested components.
- Managed state and data fetching with React Query, optimizing data retrieval and updates throughout the application.
- Implemented forms with React Hook Form to ensure seamless user interactions and reliable form submission.
- Collaborated with cross-functional teams to deliver high-quality features within Agile sprints, ensuring timely delivery and efficient project management.

**Skills Acquired:** React, Next.js, TypeScript, SCSS, React Query, React Hook Form, Storybook, and Agile methodologies.

##### Project – IndusInd Mobile Banking App

- Designed and developed responsive user interfaces using React, HTML, CSS, JavaScript and TypeScript.
- Integrated front-end with REST APIs and contributed to the development of microservices using Nest.js, focusing on features like card services, admin services, and doorstep banking.
- Implemented unit, browser, and integration testing using Jest and Supertest to ensure robust and reliable solutions while also conducting code reviews and participating in design discussions.
- Utilized tools like Sonar, GitHub, and Jira for code management, project tracking and quality assurance.
- Developed authentication and authorization solutions to enhance application security and protect sensitive user data.

**Skills Acquired:** React, Node.js, Nest.js, Redis, Jest, JavaScript, TypeScript, RESTful APIs and Agile methodologies.

#### 2. Kochar Infotech, India | IT Intern

June 2022 – May 2023

##### Project – Knowmax (Knowledge Management Platform)

- Developed and optimized front-end applications using React and TypeScript, ensuring cross-browser compatibility and enhanced user experience.
- Designed and implemented knowledge management software for customer care services, including articles, decision trees, visual guides, and FAQs.
- Enhanced application performance through migrations and optimizations, resulting in improved speed and responsiveness.

**Skills Acquired:** React, Angular, JavaScript, TypeScript, Node.js, Express.js, problem-solving, knowledge management system.

### EDUCATION

#### Bachelor of Technology (Computer Science and Engineering)

2019 – 2023

Lovely Professional University, Punjab, India

CGPA – 7.83

### LANGUAGES

- English (Fluent)
- Hindi (Native)
