SUMMARY

Backend Developer with 2 years of experience in Node.js and the MERN stack, specializing in building scalable server-side applications and APIs. Skilled at delivering efficient, performance-driven solutions while collaborating with cross-functional teams.

WORK EXPERIENCE

The Blue Canton

Backend Developer

March 2024 - Present

- **Led Backend Development for Fashquik:** Built the quick-commerce platform from the ground up, delivering a seamless fashion shopping experience.
- **Integrated Key Functionalities:** Implemented Firebase Cloud Messaging for real-time notifications, Razorpay for secure payment processing, and email services for customer communication.
- **Enhanced Localized Shopping:** Developed account management features and integrated Google Maps API to display products within a 10 km radius.

Tata Consultancy Services

Backend Developer

Oct 2020 - April 2022

Developed and maintained robust, scalable, and efficient backend services for web and mobile applications. Designed and implemented APIs, integrating them with front-end systems, ensuring seamless data flow between client and server. Utilized programming languages Node.js to write server-side logic and improve system performance. Worked with relational and NoSQL databases (e.g., MySQL, PostgreSQL, MongoDB) for data storage, retrieval, and management. Implemented authentication and authorization mechanisms to ensure secure access to resources.

EDUCATION

Vadant BCA and BCOM College, Vijayapur

Bachelor Computer Applications - 83%

june 2017 - june 2020

PROJECT

Job Portal Application [🔗](#)

- **User Features:** Provides job listings with filters for location and status, enabling users to easily find relevant opportunities.
- **Admin Features:** Allows admins to add, update, and delete job posts for efficient management of listings.
- **Tech Stack:** Built with **Express**, **Node.js**, and **MongoDB**, and deployed on **Render** ([Job Portal Backend](#)).

SKILLS

- **Tech Stack:** Node.js, Express.js, React, Angular Basic, Tailwind css , AWS Basic
- **API Development:** RESTful APIs with filtering and querying capabilities
- **Database:** MongoDB, MySQL
- **Tools:** Postman, Git, GitLab, Zabbix for monitoring and testing
