## SUMMARY

Seasoned software developer specializing in PL/SQL and Oracle ADF, with a keen interest in transitioning to React.js and Node.js development. With four years of experience in designing and maintaining enterprise-level applications, I possess a strong foundation in software architecture and database management. Eager to expand my skill set and embrace the challenges of full-stack development, I am committed to delivering scalable and performant solutions using React.js and Node.js.

## EDUCATION

<b>Master of Computer Application in Master of Computer Science</b> , Jagran Institute of Management	Aug '18 — Aug '20 Kanpur, India
<b>Bachelor of computer application in Bachelor of Computer Applications</b> , Chhatrapati Shahu Ji Maharaj University	Aug '14 — Aug '17 kanpur, India

## PROJECTS

Tour app using Nodejs

- In that project I am creating multiple api end points like tours detail and user detail and implement multiple parama to pass in api filter data and implement pagination.

Airline Booking service Using Nodejs and Sequelize

- Airline reservation system is node.js based that helps in consolidating flight data - flight schedules, seat availability, flight fares and reservations from all airlines.

## EXPERIENCE

### Software Developer

Jagran Prakashan Ltd

Jan '20 — Present

- Developed and maintained enterprise-level applications using Oracle Forms and Reports for Finance Package and Reports work for jagran Engage.
- Designed and implemented modern web applications utilizing Oracle ADF, ensuring scalability and performance.
- Developed and optimized complex SQL queries and stored procedures in PL/SQL to enhance database performance and efficiency.
- Conducted thorough analysis of database structures and query execution plans to identify bottlenecks and optimize query performance.
- Implemented indexing strategies, query rewriting, and database tuning techniques to improve overall system performance.
- Integrated Node.js into existing systems to enhance functionality and improve efficiency.
- Collaborated with cross-functional teams to gather requirements, design solutions, and deliver high-quality software products.
- Conducted code reviews, debugging, and troubleshooting to ensure code quality and maintainability.
- Provided technical expertise and guidance to junior developers, facilitating knowledge transfer and skill development within the team.

## SKILLS

**Programming Languages** JavaScript, SQL, PL/SQL, java

**Web Development** Reactjs, Nodejs, Express, HTML, CSS

**Database Management** MongoDB, Oracle ADF, Sequelize, PostgreSQL

**Version Control** Github

**Other Skills** Photography, Travel

## AWARDS

### Fellowship Program in Pesto Tech Full Stack training program

Fellowship Program in Pesto Tech Frontend and backend training program

## CERTIFICATIONS
