PROFESSIONAL SUMMARY

Software Engineer with 3 years of experience building responsive web applications using React, Next.js, and TypeScript. Skilled in leading developer teams, collaborating on projects, and creating user-friendly solutions that deliver excellent performance and great digital experiences.

EDUCATION

Bsc (hons) in Computer Science, Bhaskaracharya College Of Applied Sciences (Delhi University)   2019 - 2022

SKILLS

Frontend: HTML, CSS, Material-UI, Tailwind CSS, JavaScript, React.js, Redux, Redux-toolkit, Next.js, TypeScript
Backend: Node.js, Express.js
Database: MongoDB, mySql
Other Technologies: Git, Github, Syncfusion, Pdftron

PROFESSIONAL EXPERIENCE

Senior Software Engineer   Sep 2022 - Present
Costacloud   *Okhla Nsic, New Delhi*

- Developed and implemented a robust software solution that revolutionized the approval processes across departments, ensuring seamless coordination and reducing time-to-approval by 50%; this resulted in improved efficiency, enhanced collaboration, and accelerated project delivery timelines (Paperless eOffice).
- Successfully created Data Management System using React.js, Material-UI, Redux that allows users to upload, delete, download, favoriting, and sharing files and folders similar to Google Drive that reduces the real paper-work by 100 percent.
- Developed an application enabling users to create personalized documents with advanced editing, uploading, and annotating features using a dedicated PDF viewer and document editor. Implemented a streamlined document-sharing system, allowing seamless transfers to other registered users, reducing manual effort by 50% (Personal Application)
- Orchestrated the development of algorithms, API integration, and flowchart with a team of 5 developers; delivered a fully functional and scalable application that processed 50K+ data points daily with 99% accuracy.
- Resolved daily issues, bugs, or any additional features provided in Jira by Testing Unit, making the application bug-free and updated to the current requirement by 100 percent.

Web Developer   Feb 2022 - Aug 2022
Digi-Vertex Solutions Pvt. Ltd.   *Gurugram, Haryana*

- Converted 30+ Figma designs into responsive web pages, ensuring optimal compatibility across various screen sizes and devices.
- Contributed to the development of the official Digi-Vertex website by creating and optimizing new pages, including Service and Contact, ensuring responsive design and improved user engagement.
- Collaborated on a client project, king's bar and restaurant, implementing frontend features and integrating a Node.js backend to deliver a seamless and dynamic user experience.
- Addressed and resolved client bugs and issues by actively participating in end-to-end discussions during Zoom meetings. Conducted thorough debugging, collaborated with cross-functional teams, and provided effective solutions to improve application stability and ensure seamless user experiences.
- Seamlessly integrated backend APIs into frontend applications, enhancing functionality and user experience, stored data using MongoDB, managing a dataset of over 10,000 records.

PROJECTS

Moviesverse: Solo finished a user-friendly web application using React.js and Material-UI that allows users to search for information about any movie or Web/Tv show. The app utilizes the TMDB API for all data-related queries, ensuring 100 percent real and accurate information. To efficiently manage state and data fetching, I implemented Redux Toolkit and Redux Toolkit Query.(Link)

FlowBoard: JIRA is a software tool used for project management and issue tracking. JIRA provides a centralized platform for managing tasks, bugs, and other types of issues and it helps teams to organize and prioritize their work. It reduces complexity by more than 90 percent in managing any team project.(Link)

My-Jbook: A command-line interface (CLI) based application created using React, Typescript, Esbuild and Node that will fire up a react web app that transpiles and bundles code especially JS and JSX, allowing users to view the output in a dedicated preview window. (Link)

ACHIEVEMENTS

- Young Frontend Developer of the Month 2022 (Digi-Vertex) : Awarded for my designing skill in Frontend with React.js
- Excellence in Frontend Development 2024 (Costacloud): Awarded for my unwavering commitment and exceptional leadership at costacloud.
