Harish Modi

Con.no-8104400051

OBJECTIVE:

"Dynamic and dedicated software developer intermediate in JavaScript, React, HTML, CSS, Rest Api, Node.js, Express, and MongoDB, with foundational knowledge of AWS. Eager to apply my skills and expertise in crafting robust and scalable software solutions. Seeking a stimulating role where I can contribute to innovative projects, collaborate with talented teams, and continue expanding my proficiency in cutting-edge technologies."

ACADEMIC PROFILE:

PGDCA (84%) : Suresh Gyan vihar university,jaipur(2023)

B.tech(Electrical) (76%): Rajasthan technical university, kota (2018)

Senior Secondary(PCM) (65%) : Rajasthan board of secondary education (2014)
Secondary (74%) : Rajasthan board of secondary education(2012)

Certification:

GFG Full Stack Development with React & Node Js(Duration -10 weeks)

GFG score -181 ,Ranking -271584

Designing : Adobe XD

Skills & Strengths

Frontend

Html , Css, javascript, React(build user interface and components that are responsive,interactive and visually appealing.This may involve implementing designs provided by UI/UXdesigners.and in react sharing data with multiple components using contextAPi, Props dealing, lifting up state from child to parent . and I can implement functionality using **React redux**, context api

Backend

Using Node.js and Express .js to develop server-side logic, APi endpoints and business logic.Reducing time complexity and make code clean and efficient . I can also implement payment gateway.Fetching data from database and performing actions using aggregation.

Database Management

Designing database schemas, optimizing database queries for MongoDB, a NoSql database used in MERN stack .implement aggregation in mongodb , removing duplicate entry etc.

Version control

Using Git hub we can make continue integration, and reset code based on committed,make code secure and provide a platform for working more than one developer on a single project and making their changes in arrange way .

Interpersonal skills
 Working as team leader also, easily manage team, communication skills and interpersonal skills. Can easily work with team environment.

Experience

From Last 2 year working as **MERN STACK DEVELOPER in Pinnacle Civil Services .**Worked as content developer, Team leader in **Pinnacle Civil Services** .

Working knowledge of google documents. And having knowledge of Ms office like word, power point , making ppt and also have basic knowledge of Ms Excel .

Projects

Portfolio website, Clone of hubstaff(us based project which is a time tracking and activity management of employee. Currently working project is **Test porta**l for students .Implemented **authentication** using jwt, **payment gateway** integration,api integration having knowledge of **web hosting** .Worked with **Docker** and **ECS farget** with autoscaling which is serverless . Implemented functionality of notification using **AWS SNS** using api gateway with lambda function.Having knowledge of creating campaign using clevertap.Basic knowledge of SEO keyword, google ads,google cloud console,google analytics.Having knowledge of creating template and Header using various DLT services .

Projects Link:https://testportal.ssccglpinnacle.com

ProfessionalAccomplishments

Custom date range picker whenever you want where have different label based on week ,month, year. Graphical representation of employee productivity and salary based on last month,last week. Design website with flexible like using Media query and also using with flex and grid I can design any complex ui design with customization and based on requirement . Handle large set of data using aggregation and other methods.Provide seamless performance for user using CI/CD pipeline using gitAction and generating a build and deploy using Docker image and run project on ECS farget which is serverless.

Qualified /Appeared (govt) Exams

 Afcat 2021(interview) ,SSC CGL 2022(mains)

Personal Details
 D.o.b : Nov 1997

Language proficiency : English ,Hindi

 Gender : male
