Summary

Full-stack developer with extensive experience in the React, Node.js, Express.js and MySQL, specializing in designing and implementing dynamic, user-friendly web applications. Proficient in creating seamless integrations between front-end and back-end systems using React, Node.js, Express, and MySQL. Committed to writing clean, efficient code and delivering scalable, high-performing solutions tailored to business needs.

Skills

- React.js, Node.js, Express.js, Javascript, MySQL, MongoDB, Typescript, Next.js, Tailwind CSS, HTML, CSS, JQuery

Experience

Tata consultancy services

May 2022 to Current

Assistant System Engineer

Delhi

Built and maintained web applications using **ReactJS**, Node.js, **Express.js**, and **MySQL**, creating responsive, user-friendly interfaces, and efficient backend systems.

Handled cloud deployments on AWS, ensuring that applications were secure, scalable, and always available.

Set up and optimized CI/CD pipelines to automate deployments, making the process faster and more reliable.

Worked across the entire project lifecycle, from development to deployment in production, focusing on code quality, security, and performance to deliver solid, scalable solutions.

Projects

Eldeco— React.js, Node.js, Express.js and MySQL

Developed a scalable web application using React.js, Node.js, Express.js, and MySQL. Designed user-friendly interfaces, implemented RESTful APIs, and managed database operations to ensure seamless functionality and performance.
