SUMMARY

Recent graduate MERN Stack Developer proficient in JavaScript, React.js, Node.js, and Express.js. Experienced in building responsive web applications, collaborating in teams, and solving complex problems with clean code practices.

EDUCATION

RVS COLLEGE OF ENGINEERING AND TECHNOLOGY

B.Tech - Computer Science and Engineering - CGPA - 8.5

2021 – 2024

Jamshedpur, Jharkhand

AL-KABIR POLYTECHNIC

Diploma of Technology in Mechanical Engineering - Percentage - 85%

2018 – 2021

Jamshedpur, Jharkhand

PROJECTS

Fully Functional E-commerce Website [↗](#)

- The platform provides a seamless shopping experience with features including product browsing, detailed product pages, user authentication, shopping cart management, and secure payment processing.
- **React 18, Tailwind CSS, Redux Toolkit, React Router v6:** High-performance, responsive, and seamless user interface.
- **Node.js, Express.js, MongoDB, Mongoose v7:** Scalable server, robust API, and high-performance NoSQL database.
- **Passport JS, Passport JWT, Stripe:** Secure user authentication and trusted online payment processing.
- **Nodemailer, JSON-server, MongoDB Atlas:** Secure email communication, mock API testing, and reliable cloud database.

Self-Portfolio [↗](#)

- I have created a dynamic and interactive portfolio utilizing the MERN stack. My portfolio showcases my proficiency in developing full-stack applications with a focus on clean, maintainable, and efficient code.
- Cutting-edge, interactive UI with responsive design and immersive 3D elements.
- Scalable server architecture, efficient API, and robust NoSQL database management.
- Reliable and secure user authentication using JSON Web Tokens.
- Effective email communication and testing setup.
- Mock backend testing and dependable cloud database service.

Chat-App [↗](#)

- **Developed a Chat Application:** Real-time messaging, online user status, authentication and authorization, global state management, error handling, and professional deployment.
- **HTML, CSS, JavaScript, React, TailwindCSS, DaisyUI:** Modern and responsive user interface using standard web technologies and advanced styling frameworks.
- **Node.js, Express, Socket.io, JWT, Zustand:** Efficient and scalable server-side environment with real-time messaging.

TECHNICAL SKILLS

Languages: Java, and Basic of Python.

Web Development: HTML, CSS, Javascript.

Technology, Frameworks and Libraries: GitHub, OOPs in Java, ReactJS, Redux, NodeJS, ExpressJS, Git, MongoDB, MySQL, Bootstrap, Tailwind

Developer Tools: VS Code

INTERNSHIP

Greemus Software Technology [↗](#)

07 2024 – 10 2024

- JavaScript: Advanced JavaScript concepts include closures, promises, async/await, event loop, prototypes, currying, higher-order functions .
- ReactJs: Learned to build interactive UIs using components, while Redux helps manage application state globally with predictable state updates through actions and reducers

YHills [↗](#)

05 2023 – 06 2023

- Machine Learning: Learn the Data visualization with Matplotlib and Seaborn
- Handling dataset, Calculation of mean, median, mode, variance, and Standard Deviation and Regression Model such as Linear and Logistic Regression

CERTIFICATIONS

React and Redux [↗](#)

JavaScript [↗](#)
