I have consistently ranked within the top three performers in my cohort for the past six months, achieving this recognition on four occasions.

Sourav Anand
Full Stack Web Developer

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer with expertise in the MERN stack, including React.js, Node.js, and MongoDB. Demonstrates strong problem-solving and collaboration skills, alongside a robust capability in learning new technologies swiftly, including Generative AI. Committed to delivering efficient and reliable web solutions.

WORK EXPERIENCE

Zipteams
SDE-1
May 2024 – November 2024
Job responsibilities:

- Developed and maintained front-end and back-end components of web applications using MERN and TypeORM.
- Designed and implemented RESTful APIs using Nest.js for seamless server-client communication.
- Managed and optimized MySQL databases for integrity, scalability, and performance.

Wipro
Project Engineer
April 2022 – May 2023
Job responsibilities:

- Developed integration solutions using WebMethods and Java to enhance and customize functionality.
- Integrated Java components with WebMethods services for seamless end-to-end functionality.

PROJECTS

1. Queezo App | ⊕ | ⬤
JavaScript | Git | Node.js | Express.js | MongoDB | HTML5 | CSS3 | Socket.IO | SQL

- Designed and developed a quiz application using Node.js, Express.js, and MongoDB, with features for quiz creation, management, and performance tracking.
- Implemented secure user authentication, including signup, login, and logout, ensuring data privacy and a seamless user experience.
- Integrated Socket.IO for real-time updates and notifications, enhancing user engagement as part of a collaborative 4-member development team.

2. Travel Website | ⊕ | ⬤
JavaScript | Git | Node.js | Express.js | MongoDB | RESTful APIs | HTML5 | CSS3

- Built a travel website using the MERN stack with user authentication, package booking, and an admin dashboard for managing packages via CRUD operations.
- Designed efficient filtering and sorting methods for travel package discovery and implemented responsive UI.
- Contributed to backend optimization and frontend design as part of a collaborative 5-member team.
