

# SANTOSH KUMAR

Full Stack Developer

📞 8707495901    @ krrsantosh0@gmail.com    🔗 <https://linkedin.com/in/santosh-kumar-79700b182>

## SKILLS

### Frontend

Angular	API Integration
Graphql	Javascript
Responsive Web	React

### Backend

NodeJs	ExpressJs	NestJs
SQL	Drizzle ORM	Postgress
MongoDB	Graphql	

### Other

Git	Github	Postman
VS Code		

## EDUCATION

**Bachelor of Technology**  
[Technocrats Institute of Technology](#)  
📅 07/2018 - 07/2022

**Intermediate**  
[Govt. Aashram Paddhati School](#)  
📅 05/2016 - 05/2018

**High School**  
[Govt. Aashram Paddhati School](#)  
📅 05/2014 - 05/2016

## KEY ACHIEVEMENTS

**Client Appreciation**

Received an appreciation email from the client for delivering a high-quality product and maintaining exceptional project timelines and standards.

## SUMMARY

I am a dedicated and detail-oriented Software Engineer with expertise in the MEAN stack, specializing in developing scalable, high-performance web applications. Proficient in Angular, Node.js, and Express.js, I have a proven track record of delivering client-focused solutions and optimizing development processes.

## EXPERIENCE

**Associate Software Engineer**

[Neosoft Technologies Pvt. Ltd.](#) 📅 12/2022 - Present

A technology service provider focusing on delivering high-performance software solutions.

- Contributed to the development of scalable, high-performance applications using the MEAN stack as part of a team, focusing exclusively on implementing complex frontend logic, including state management and API integration.

**Trainee Engineer**

[Neosoft Technologies Pvt. Ltd.](#) 📅 08/2022 - 12/2022

A technology service provider focusing on delivering high-performance software solutions.

- Completed intensive training in the MEAN stack, gaining hands-on experience in building end-to-end web applications.
- Developed responsive web solutions, emphasizing performance optimization and scalability.

## PROJECTS

**1Finance Web App**

📅 08/2023 - 01/1970

A finance management application designed to assist consultants.

- Built a finance management platform enabling consultants to gather customer data and provide detailed asset plans.
- Implemented an interceptor for authentication to ensure secure API requests.
- Implemented GraphQL integration for efficient data querying and Angular guards for role-based access control, enhancing security and data accessibility for consultant meetings.
- Implemented Socket.IO for streaming the net worth calculation results from the Angular frontend after the computations were completed.

**Supliety**

📅 04/2023 - 08/2023

An e-commerce platform facilitating grocery shopping.

- Developed a grocery e-commerce website with user registration, product search, and secure checkout functionalities.
- Streamlined vendor management, enabling seamless onboarding and product uploads.
- Improved performance by optimizing API calls, reducing load times by 10%.
