Projects

1) Lottery Management System :-
Technologies: Node.js, JavaScript, Express.js, MySQL, Nodemailer, Sequelize, CronJob, Axios, JWT
Functionality:

- **Admin Features:**
  - Add lotteries with closing dates and attach product details with images.
  - Update lottery details and products as needed.
  - Monitor product tracking details.
- **Automated Processes:**
  - Automatically open lotteries on the scheduled date and time using CronJobs.
  - Notify all users when a lottery opens.
- **User Features:**
  - Add funds to a wallet for purchasing lottery tickets.

2) Mandal Management System :-

Technologies: Node.js, JavaScript, Express.js, MySQL, Nodemailer, Sequelize, CronJob, Axios, JWT, FCM, Bcrypt

Functionality:
- **Admin Panel:**
  - Grant loans using current available funds.
  - Approve or reject user memberships.
  - Manage venue and function details.
- **Financial Management:**
  - Generate monthly PDF reports including savings, interest, fines, and expenses.
  - Monitor total users, loans, and sub-admin approvals.
- **User Capabilities:**
  - Pay savings and loans online.
  - Receive notifications for venue addresses or functions.
- **Automated Notifications:**
  - Use **Cron Jobs** to send reminders and updates.

3) FXGAVA & Accounting System :-

Technologies: Node.js, TypeScript, Express.js, MySQL, Nodemailer, Sequelize, CronJob, Axios, JWT, FCM Notifications, Bcrypt, Redis

Functionality:
- **User Management:**
  - Add sub-users and assign them commission percentages.
  - Submit account start or closure requests.
- **Transaction Monitoring:**
  - Track profits and losses per user.
  - Assign sub-users to specific commissions.
- **Reporting:**
  - Generate PDF or Excel reports for transactions, profits, and losses.
- **Admin Controls:**
  - Approve or reject user accounts.
  - Send personalized notification messages to users.
