SUMMARY

I am a web Developer enthusiast with a knack for crafting engaging front-end and back-end projects. I am a dedicated learner with an enthusiasm for applying computer science knowledge to real-life challenges. Proficient in Python and Web Development, I am on a quest to bridge the gap between front-end and back-end development for holistic web solutions.

SKILLS

Programming Languages: Python

Web Development: React, JavaScript, PHP, NodeJS, ExpressJS, WordPress, HTML, CSS

Developer Tools: VS Code, Visual Studio, Jupyter Notebook, Git

CourseWorks: OOPS, DBMS

Database: MySQL, MongoDB

EXPERIENCE

SAVVYONWEB PVT. LTD.

Web Developer

On-site

Jul 2024–Jan 2025

- Crafted dynamic and responsive websites.
- Seamlessly merged front-end and back-end functionalities.
- Designed interactive user interfaces.
- Developed robust back-end systems for various projects.

NAVRITI TECHNOLOGIES PVT LTD.

On-site

Feb 2024–Apr 2024

- Developed a Custom Form Builder using React.

HIGHRADIUS

Remote

Technical Intern

Jan 2022–Apr 2022

- It was a B2B invoice management web application backed by a machine learning model for predicting the correct date of payment by client companies.

BSNL

On-site

Vocational Training

Jun 2022–Jul 2022

- Hands-on training in telecom operations and infrastructure management. Practical experience in network infrastructure, troubleshooting, and project collaboration.

PROJECTS

WIZ FREELANCERS Website

- Created a fully dynamic website for 'Wiz Freelancers,' my freelancing venture, demonstrating a strong blend of flexibility and functionality. This project highlights my expertise in web development and showcases my ability to design and develop comprehensive web solutions tailored to client needs.
- Technology used are **React, ExpressJS, NodeJS, MongoDB**

E-Commerce Application

- Built a fully functional e-commerce app with an Angular frontend and a RESTful API backend.
- Technology used are **HTML, CSS, JavaScript, Angular**

Amazon Clone

- I created a visually appealing Amazon clone using HTML and CSS, showcasing strong front-end skills in responsive design and UI principles.
- Technology used are **HTML, CSS, JavaScript**

Blog Site

- Dynamic blog site designed and implemented with Bootstrap frontend, showcasing expertise in responsive design and UI/UX principles.
- Technology used are **HTML, CSS, Bootstrap(Framework)**
