Education

Dharmsinh Desai University

Master of Computer Application (6.7/10)

Aug 2019 – Apr 2022

Nadiad, Gujarat

Som Lalit College of Computer Application, Gujarat University

Bachelor of Computer Application (6.2/10)

May 2016 – Apr 2019

Ahmedabad, Gujarat

Shri A.Z Kaneria High School

Higher Secondary Examination (72%)

Mar 2015 – Apr 2016

Dhoraji, Gujarat

Technical Skills

Programming Languages: C++, JavaScript, Python, SQL

Frontend: ReactJS, HTML, CSS, JavaScript

Backend and Database: Node.js, Express.js, MySQL, PostgreSQL

Cloud Platform: AWS

Development Tools: GitHub, Postman, Visual Studio Code

Experience

EdgeVerve Systems Limited an Infosys Company

July 2022 – Present

Associate Product Developer

Pune, Maharashtra

- Specialize in API development utilizing JavaScript, Node.js and Express.js contributing to the creation of robust and scalable backend systems for client projects and company products.
- Lead the implementation of RESTful APIs, ensuring adherence to industry best practices and standards for efficient communication between frontend and backend systems.
- Develop and deployed applications on AWS, leveraging services such as Lambda and S3 to build server-less and cloud-based solutions.
- Implemented microservices architecture, enhancing system scalability, maintainability, and efficiency.
- Utilized AWS CloudFormation for managing infrastructure as code(IaC), streaming deployment process, ensure consistency.
- Drive unit testing initiatives, utilizing frameworks such as Mocha and Chai to ensure the reliability and functionality of developed APIs, achieving 90% code coverage and delivering high-quality, dependable software solutions.
- Collaborate closely with cross-functional teams throughout the software development lifecycle, from requirements gathering to deployment, to deliver high-quality solutions that meet client needs.
- Actively participate in code reviews and quality assurance processes, providing valuable feedback and insights to enhance code quality and maintainability.
- Mentored and guided interns in their professional development by providing technical support, resolving code challenges, and facilitating effective knowledge transfer.

Tech: JavaScript, Node.js, Express.js, React.js, MySQL, GitLab, AWS(Lambda, S3, CloudFormation), Microservices.

PixelQue Pvt Ltd.

Dec 2021 – Jun 2022

Software Development Engineering, Intern

Ahmedabad, Gujarat

- Implemented Single Sign-On (SSO) login with Google Auth and Passport API for seamless user authentication across platforms.
- Utilized JWT for secure, stateless authentication, ensuring data integrity and confidentiality.
- Developed Angular frontend for intuitive user interfaces and Node.js backend for authentication requests and MongoDB interaction.
- Collaborated on cross-functional teams to integrate authentication into client projects, ensuring compatibility and adherence to requirements.
- Conducted thorough testing and debugging to ensure reliability and security.

Tech: Angular, Node.js, MongoDB

Projects

Car Selling System | NodeJS, ExpressJS, JavaScript, BOOTSTRAP, PostgreSQL

- Created an intuitive Car Selling System that empowers car owners to easily upload details of their vehicles, while providing customers with a user-friendly platform to browse car listings and connect directly with sellers.

FOODMART | Python, Kivy, MySQL

- Designed and implemented a comprehensive FOODMART System, a desktop application enabling customers to effortlessly place orders while providing administrators with the capability to add, update, or delete food items based on store availability.
