## EDUCATION

- Ajay Kumar Garg Engineering College** Ghaziabad, India  
*Bachelor of Technology - Computer Science; GPA: 8.10*  
*Courses: Operating Systems, Data Structures, Analysis Of Algorithms, Discrete Mathematics, DBMS*  
Aug 2019 - Jun 2023
- S.D. Public School** Muzaffarnagar, India  
*Intermediate- 12th; Percentage: 92.6%*  
*High School- 10th; CGPA: 10*  
2018-19  
2016-17

## EXPERIENCE

- Accenture India Private Limited**  
*Associate Software Engineer* November 2023 - Present
  - Working as a Backend Developer, contributed to the design and development of robust APIs using Node.js, and played a key role in supporting the team to deliver high-quality backend solutions.
  - Served as a Database Developer, leading the successful migration of the database from MySQL to PostgreSQL, and provided critical support to the team in ensuring a smooth and efficient transition.
  - Utilized MySQL to develop and maintain Stored Procedures, ensuring efficient and reliable data operations for the project.
  - Tech used- Nodejs MySQL, PostgreSQL:**
- Blockchain Research Lab** Remote  
*Applicaton Developer* July 2020 - August 2023
  - Developed an extensive portfolio of diverse blockchain projects, offering students real-world experience in decentralized applications, smart contracts, and secure data management.
  - Worked as a Head Coordinator to manage a team of around 50 members.
  - Conducted around 7 to 8 technical events in our college which helped our juniors to enhance their knowledge about new techs.
  - Tech used- Dart, Flutter:**

## PROJECTS

- MakersMate Website** September 2023
  - Designed and implemented scalable RESTful APIs using Node.js and Express, enabling seamless data exchange between the front-end and back-end systems.
  - Implemented JWT-based authentication and role-based access control to secure API endpoints, ensuring data integrity and user privacy.
  - Integrated robust error handling mechanisms and logging practices to monitor API performance and troubleshoot issues in real-time.
  - Tech used- React js, Node js, Mongo DB:**
- Pizzeria Website using MEAN Stack** January 2024
  - Developed a dynamic pizza ordering website using Angular, delivering an intuitive and seamless user experience.
  - Integrated Express.js and MongoDB to efficiently manage and retrieve data for dynamic content display on the website.
  - Tech used- Angular js, Node js, Mongo DB:**

## CERTIFICATES AND ACHIEVEMENTS

- AWS** Certified Cloud Practioner Certificate
- Ultimate AWS Certified Cloud Practitioner on Udemy Certificate
- Developing Soft Skills and Personality Certificate.
- Ranked 5 in intra college competitive coding contest
- Enhancing Soft Skills and Personality Cerificate

## SKILLS SUMMARY

- Languages:** C, C++, Javascript, SQL, Dart, NoSQL
- Programming:** Data Structures and Algorithm , Problem Solving, OOPs
- Tech Stack:** MySQL, PostgreSQL, Flutter, AWS, Node JS, Express JS,
