SUMMARY

Full Stack Developer I am a Full Stack Developer at Sun Integrated Technology, a product-based company specializing in innovative technology solutions. My primary role involves managing and developing projects using the MEAN stack (MongoDB, Express.js, Angular, Node.js). Key Responsibilities: Project Management: Overseeing the entire project lifecycle, from initial requirements gathering and planning to deployment and maintenance. Development: Writing clean, efficient, and scalable code for both front-end and back-end components of web applications. Team Leadership: Leading a team of developers, providing guidance, and ensuring best practices are followed. Collaboration: Working closely with cross-functional teams, including designers, product managers, and QA testers to deliver high-quality products. Optimization: Continuously improving application performance, implementing new technologies, and optimizing existing features. Troubleshooting: Identifying and resolving.

EXPERIENCE

FULL STACK DEVELOPER, 03/2021 - Current

SUN INTEGRATED TECHNOLOGY AND APPLICATIONS, NOIDA, INDIA

- **9 Months**

- **Sunira design(Ecommerce)**

- Sunira Designs (Ecommerce) Ecommerce Site (Sunira Designs)
-<https://suniradesigns.com/> This Application build In (Angular12, NodeJS, MongoDB, Express JS) I Have Worked On this Project With My Senior Developer And I have Worked On Backend And Frontend Both Side
