github.com/deepaknagargithub

Enthusiastic front-end Developer with Almost 3 years of hands-on experience in developing responsive web applications using React.js, HTML, CSS, and JavaScript. Successfully collaborated with a team of 5 developers and designers, utilizing strong communication and teamwork skills to enhance project outcomes. Demonstrated problem-solving abilities by reducing page load times by 20% and improving user engagement by 10% through optimized code and innovative design.

WORK EXPERIENCE

Software Engineer

Flucent Technologies Pvt Ltd

04/2023 - Present

Noida

Software Company

Achievements/Tasks

- **Developed and Maintained Applications:** Built and maintained 5-6 web applications using specific tech stack, e.g., React.js, Node.js, Express, MongoDB enhancing user experience and operational efficiency.
- **Back-End Development :** Implemented back-end services and APIs, managing data flow and ensuring security with technologies, e.g., Node.js, Express, MySQL, MongoDB.
- **Optimized Performance :** Improved performance and scalability by specific optimizations, e.g., code refactoring, load balancing, optimizing database queries resulting in a specific metric, e.g., 30% reduction in load time.

Software Developer

Sun System Infotech Pvt Ltd

10/2020 - 03/2023

Noida

Software Company

Achievements/Tasks

- Built and maintained web applications using front-end frameworks and back-end technologies to deliver seamless user experiences.
- Designed and optimized database schemas in MySQL and MongoDB to ensure 100% efficient data retrieval and storage, enhancing application performance.
- Used Git for version control, collaborated on code reviews, and adhered to best practices to ensure clean, maintainable code.
- Worked closely with product managers, UX/UI designers, and other 5 team members to align technical requirements with business goals.

PERSONAL PROJECTS

SOCIAL MEDIA APPLICATION | REACTJS, HOOKS, CONTEXT API, NODEJS, EXPRESSJS, MongoDB (10/2020 - 01/2021)

- Built responsive and interactive front-end using React, implementing reusable components and state management with React hooks to provide a smooth user experience.
- Developed server-side logic using Node.js and Express, handling CRUD operations for data management and ensuring secure and efficient API endpoints.
