# **Faiz Noor**

Hafar Al Batin, Saudi Arabia Nationality: Pakistan

# **Profile Summary**

MERN & MENN stack developer with a year of dedicated learning and hands-on project experience. Skilled in MongoDB, ExpressJS, ReactJS, NextJS, and NodeJS, with a strong foundation in building responsive web applications. I seek opportunities to apply my skills, grow professionally, and make a meaningful impact in a dynamic team environment.

#### Skills

Front-End: HTML, CSS, JavaScript(ES6+), React.js, Next.js, Bootstrap, Tailwind CSS

Ul Libraries & Frameworks: Material-Ul, Ant Design, Redux

Back-End: Node.js, Express.js, MongoDB, Firebase, Redis, RESTful APIs, Third-party APIs, JWT

DevOps and Deployment Skills: Docker, Git, GitHub, Vercel,

# **Experience**

Internship | SMIT (Saylani Mass IT Training Program)

- Built and deployed web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- . Designed and developed responsive user interfaces with React.js, ensuring cross-browser compatibility and mobile-first design principles.
- . Created RESTful APIs with Node is and Express is to manage backend operations and data processing.
- Utilized MongoDB to design efficient database schemas for scalable applications.

# **Projects**

### **Chat App**

- . I developed a real-time chat application using the MERN (MongoDB, Express, React, Node.js) stack and Socket.io, providing seamless one-on-one messaging functionality.
- . Secure login and signup functionality using JWT (JSON Web Tokens). Display all logged-in users in real time, making it easy to identify who can chat.
- . An efficient search system that quickly finds specific users based on their names.
- Users can initiate private, one-to-one conversations with other users.

#### **SAK Shop (E-commerce Platform)**

- . The SAK E-commerce Website is a specialized online platform for users to browse and order various auto parts conveniently. Developed with the MERN stack (MongoDB, Express.js, Next.js, and Node.js).
- . A well-organized navigation system that allows users to browse spare parts by specific categories (e.g., engine parts, suspension, brakes). A search bar with auto-suggestions and filter options, enabling users to find products by keywords.
- . Instead of a traditional shopping cart, users can place orders directly through WhatsApp.

### **Education**

## Degree College | Intermediate | Wazirabad, Pakistan

2018

Completed Intermediate (High School Diploma)

### National Model School | Matriculation | Wazirabad, Pakistan

2016

Completed Matriculation (Secondary School Certificate)

### Certification

#### Saylani Mass IT Institute | Karachi, Pakistan

2024

Covered topics include HTML, CSS, JavaScript, React, Node.js, Express, & MongoDB.
