Experience

Project Engineer | Wipro LTD. Pune

Nov 2022 – Present

- Developed and maintained server-side logic using Node.js and Express.js, implemented scalable and secure backend services, incorporated with MongoDB, PostgreSQL, and MySQL database.
- Designed RESTful APIs to enable communication between front-end and back-end services.
- Used JWT and OAuth2 for authentication and authorization to API endpoints.
- Optimized application performance by implementing caching strategies with Redis and optimizing database queries.
- Along with Backend learned to build dynamic, responsive front-end applications using React.js, created reusable components, ensuring high-quality code and implemented best practices.

Skills

C | Java | JavaScript | TypeScript | NodeJS | Express JS | ReactJS | Next JS | MongoDB | MySQL | PostgreSQL
Git | AWS | Redux | Turborepo

Projects

Tweetly | <https://tweetly-psi.vercel.app/>

- Full stack social media platform by utilizing modern web technologies. Used Next.js 14 as the full Stack framework, PostgreSQL as the database, and Prisma as the ORM for seamless data management.
- Designed and developed the frontend interface using shadcn and tailwind CSS, ensuring responsiveness and accessibility across various devices and screen sizes.
- Used Next Auth for user authentication and session management, which is helpful for secure login/logout functionalities.
- Implemented core functionalities like user authentication, messaging, follow/Unfollow, users can share posts and able to like and comments to others posts.

Swigato

- An Online food delivery application using MERN Stack.
- Developed RESTful APIs using Express.js to handle user authentication, restaurant management, menu browsing and order placement functionalities.
- Created reusable React components for building the user interface, including restaurant listings, menu items, shopping cart, and payment gateway.
- Implemented JWT authentication middleware to secure API endpoints and restrict access to authenticated users, ensuring to prevent unauthorized access.
- Integrated third-party API stripe to enable online payments for enhancing the user experience and functionality of the application.

Education

- D. Y. Patil College of Engineering and Technology, Kolhapur 2018 - 2022
B. Tech Mechanical CGPA: 8.53

Certifications

AWS Certified Cloud Practitioner

2023 – 2026
