## SUMMARY

---

I am a full-stack developer specializing in Node.js for building efficient and scalable server-side applications. With expertise in the MERN stack (MongoDB, Express.js, React.js, Node.js), I create end-to-end web solutions, delivering responsive front-end designs, robust back-end systems, and seamless database integration. My focus is on building maintainable, high-performance applications that meet user and business needs.

## TECHNICAL SKILLS

---

**Languages:** : HTML5, Bootstrap, JavaScript, Typescript, MongoDB, Java, Core Java,  
**Frameworks:** React JS , Node JS, Express JS, Angular JS  
**Soft Skills:** Communication, Teamwork, problem-solving skills, Multi-tasking, Continuous Learning

## EXPERIENCE

---

### Node Js Developer With Mern Stack

Dec. 2023 - Present

LZYCRAZY PVT LTD

Noida

- Project Overview: Real-Time Vehicle Location Updates with Node.js, MERN Stack, Flespi, MQTT, and Socket.io
- Developed a comprehensive vehicle management system for real-time tracking of moving vehicles using the MERN stack (MongoDB, Express.js, React.js, Node.js), integrated with Flespi and MQTT, and enhanced with Socket.io for live updates. Designed specifically for fleet management, the system enables super admins, companies, and users to manage trucks, trailers, drivers, and other critical assets.
- API Development: Built a backend using Node.js that interacts with Flespi, a telematics platform providing real-time vehicle data, and the MQTT protocol for message brokering. Integrated Socket.io for pushing live location updates to the frontend.
- Socket.io for Live Updates: Socket.io is used to establish a WebSocket connection between the backend and the frontend, allowing for instantaneous data updates without the need for constant HTTP requests.
- Implemented a robust role-based access control system to provide granular permissions for different user levels, ensuring security and streamlined usability.
- Integrated Cloudinary for efficient image and file handling, enabling seamless storage and retrieval.
- Leveraged ChatGPT extensively to boost productivity and enhance efficiency through daily interactions, showcasing expertise in utilizing AI technologies effectively.

### Full Stack Developer Training Internship

Nov 2022 - Nov 2023

Doomshell Software Pvt Ltd

Jaipur, Rajasthan

- E-commerce Platform
- Front-End: React.js
- Back-End: Node.js with Express.js
- Database: MongoDB for storing product and user information.
- Authentication: Implemented user authentication using JWT(JSON Web Tokens).
- Implemented user authentication and password hashing for user registration and login.
- Admins can add, update, and delete products using protected routes.

## EDUCATION

---

### Maharshi Dayanand Saraswati University

Ajmer, Rajasthan, India

Bachelor of Science

2019 - 2021

## CERTIFICATIONS

---

### Doomshell Software Pvt Ltd - Full Stack - React Native

Issued Oct 2023
