SUMMARY

Experienced Full Stack Developer with 2.5+ years specializing in frontend development. Skilled in delivering scalable and responsive web applications using modern JavaScript frameworks and libraries. Proven expertise in cross-functional collaboration and problem-solving to drive project success.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Redux, Material UI, Tailwind, Bootstrap

Backend: Node.js, Express.js, MongoDB, REST APIs, Serverless

Tools & Platforms: Git, Docker, AWS, CI/CD, Jira, Dev Tools

Other Skills: Responsive Design, Cross-Browser Compatibility, Problem Solving

EXPERIENCE

Software Engineer - Arokee Online Solutions (Bengaluru, Karnataka)

JUL 2024 - PRESENT

- Provide ongoing support for web applications, troubleshooting bugs and optimizing performance.
- Collaborate with cross-functional teams to ensure robust application functionality..

Associate Software Engineer - Arokee Online Solutions (Bengaluru, Karnataka)

JUN 2022 - JUN 2024

- Developed Patient and Prescriber portals from Figma designs, creating responsive web applications.
- Spearheaded the migration of a backend service from PHP to Node.js, achieving a 30% improvement in response time and enhanced scalability.

Intern - Arokee Online Solutions (Bengaluru, Karnataka)

JAN 2022 - MAY 2022

- Assisted in UI development using React.js and participated in code reviews to uphold quality standards.

PROJECTS

Prescriber & Patient Portal - (Client - ImprimisRx) - [\[Link\]](#) | Role - Frontend Developer

Interactive web portal designed for healthcare providers and patients to manage prescriptions, patient records, and payment information, improving operational efficiency.

Key Contributions: Delivered the project in a short timeline by designing complex forms, streamlining prescription workflows, and integrating APIs for high-volume data handling.

Tech Stack - Reactjs, Redux-toolkit, Material UI, React-Reactive-Form, Typescript.

Flickit Admin Portal - (Client - Flickit) | [\[Link\]](#) | Role -Frontend Developer

Comprehensive dashboard for managing customer and user data, including videos, images and other media assets, providing role based information and features access.

Key Contributions: Implemented dynamic data visualization and modular architecture for scalability.

Tech Stack - Reactjs, Redux-toolkit, Material UI, Formik, Yup.

Hireme Taxi Service - (Client - Grepix Infotech) | Role - Backend Developer

Migrated the whole backend service from PHP to Node.js, resulting in faster response times and enhanced scalability.

Key Contributions: Re-architected backend logic and implemented Docker for containerized deployment.

Tech Stack: Node.js, Express.js, MongoDB, Docker

EDUCATION

MCA - Indira Gandhi national Open University | JUL 2017- JUN 2020 (Ghaziabad, Uttar Pradesh)

BCA - Institute Of Foreign Trade & Management University | JUL 2013 - JUN 2016, (Moradabad, Uttar Pradesh)
