## WORK EXPERIENCE

### Software Developer

#### Illuminz Pvt Ltd

05/2024 - Present

Mohali, Chandigarh

- As a Software Developer on *Travalot*, a tourism web app, I built and optimized backend APIs using Hapi.js, with MySQL as the database. I developed data models and handled complex relationships to support travel packages, destinations, and user interactions, ensuring secure, efficient, and scalable backend performance.

### Software Developer

#### Leewayhertz Technologies Pvt Ltd

09/2021 - 02/2024

Gurugram, HR

- Proficient Full Stack Developer with extensive expertise in a diverse range of Web and Blockchain technologies, contributing skills and knowledge since September 2021. Seeking a challenging position as a Web Developer where my expertise in front-end and back-end technologies can be utilized to create innovative and user-friendly web applications

## INDUSTRIAL PROJECTS

### TRAVALOT

- As a Software Developer on *Travalot*, a tourism web app, I built and optimized backend APIs using **Hapi.js**, with **MySQL** as the database.

### SCORTIK TECHNOLOGIES

- Roles and Responsibilities: Worked as a developer on the blockchain protocol rating and review platform using **Wordpress**, **Blockchain**, **Nodejs**, and **AWS services**.

### XDC DELPHI SDK

- Roles and Responsibilities: Developed a **Delphi** based SDK to interact with the **XDC blockchain**.

### XDC PAY

- Roles and Responsibilities: Developed an extension for XDC using **ReactJs**, **NodeJs**, and the **XDC Blockchain**

### GETTR

- Roles and Responsibilities: Worked on the ADR token created using **Solidity** and integrated into the web-app called Gettr

### TASHI WALLET

- Roles and Responsibilities: Worked on the pallet module to store crypto-wallet information in the blockchain using **ReactJs**, **NodeJs**, **Polkadot Blockchain**, and **Substrate**.

### ASTROPLEDGE

- Roles and Responsibilities: Worked on the launching of **Relay chain**, **Parachain**, **Validator & Colletor nodes** using **Polkadot Blockchain** and **Substrate framework**.

### ZBRAIN

- Roles and Responsibilities: Worked on frontend & backend of an internal project based on **AI** using **ReactJs** and **NodeJs**.

### MAKE MY TALE

- Roles and Responsibilities: Individually worked on a microservice to save hashes in the **XDC Blockchain** for traceability using **NodeJs**.

## EDUCATION

### Bachelor of Technology (B.Tech)

#### DRONACHARYA GROUP OF INSTITUTIONS

07/2018 - 12/2022

Greater Noida

- Computer Science & Information Technology (CSIT)
