EXPERIENCE

Reshita   May 2024 – Present
Full Stack Developer   *India*

- Developed a robust internal management system to streamline organizational processes, enhancing team productivity by automating repetitive tasks.
- Integrated ABDM (Ayushman Bharat Digital Mission) APIs via a proxy server, ensuring secure and efficient communication with external systems.
- Implemented advanced features like pagination for large data sets, improving data accessibility and application performance.
- Designed and enforced role-based authentication and authorization, ensuring secure access control across the platform.
- Developed responsive, user-friendly interfaces with React, improving usability and engagement.
- Conducted extensive testing, debugging, and performance optimization to maintain high application standards.

Vereda Digital Technology   July 2023 – December 2023
Node.js Developer   *India*

- Integrated Nodemailer for automated email services, Multer for file uploads, and Twilio for SMS notifications.
- Designed and implemented secure authentication and authorization using JWT for user management.
- Collaborated with cross-functional teams to define API requirements and develop scalable solutions.

PROJECTS

Clothify Ecommerce Web Application   Live, Admin

- Independently developed a fully functional E-commerce web application for selling clothes using the MERN stack, including an admin panel for managing orders, tracking, and adding products.
- Implemented authentication, authorization, and RESTful API architecture for seamless and secure data flow.
- Integrated payment gateway using Razorpay, file uploads with Cloudinary and Multer, and automated email notifications with Node Mailer.
- Technologies Used: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Git, JWT, Cloudinary, Multer, Node Mailer, Razorpay, Docker, DigitalOcean, Vercel.

Task-Management Application   Live

- Developed a comprehensive task management application using MERN stack, enabling users to create, organize, and track tasks efficiently.
- Implemented user-friendly interfaces for seamless task organization, deadline setting, and task sharing among team members.
- Integrated robust authentication and authorization systems to ensure secure access control and data privacy.
- Conducted rigorous testing and optimization to ensure high performance, reliability, and scalability of the application.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React, Redux, Tailwind CSS

Backend: Node.js, Express.js, MongoDB, Python

Tools: Git, Docker, DigitalOcean, Vercel, JWT, Razorpay, Cloudinary, Multer

EDUCATION

Ganesh Lal Agarwal University   Mathura, India
Master of Computer Application   *July 2023 – July 2025*
