PROFESSIONAL SUMMARY

• Backend Developer with expertise in designing and optimizing server-side architectures to deliver scalable and highperformance solutions. Skilled in Node.js, Express.js, MongoDB, PostgreSQL, and MySQL, with a strong focus on developing efficient RESTful APIs and managing complex data workflows. Proficient in implementing caching strategies to enhance application speed and responsiveness, while leveraging modern technologies to ensure reliability and performance. Committed to writing maintainable, clean code and driving seamless integration of backend systems.

PROFESSIONAL EXPERIENCE

• Glazer Games Pvt. Ltd.

Surat

Software Engineer

Feb 2024 - Current

- Designed and optimized server-side architectures to improve operational workflows.
- •- Engineered efficient APIs and implemented scalable database models.
- •- Integrated innovative technologies such as Geo Fence and AWS Rekognition.

Merchraja Business Solutions Private Limited

Mohali

 $Software\ Engineer$

Mar 2022 - Feb 2024

- Developed efficient RESTful APIs and managed complex data operations using PostgreSQL.
- •- Implemented caching mechanisms with Redis to enhance application responsiveness.
- •- Delivered robust and real-time user experiences using Node is and Express. is.

KEY PROJECTS

Evify Logistic

• THRYL

• StayCare

(Feb 2024 - Current)

Backend Developer

- Contributed to designing and optimizing server-side architectures.
- Engineered efficient APIs and implemented scalable database models.
- Integrated Geo Fence for dynamic location tracking and AWS Rekognition for biometric authentication.

(Aug 2024 - Current)

Backend Developer

- Architected and optimized scalable server-side solutions.
- Developed efficient RESTful APIs and managed complex data operations using PostgreSQL.
- Implemented caching mechanisms with Redis to enhance application responsiveness.

Full-Stack Developer

Oct 2023 - Jan 2024

- Designed and implemented end-to-end application features.
- Utilized Node.js, Express.js, MongoDB, and Redis for backend development.
- Developed interactive, user-friendly, and responsive interfaces using ReactJS.

• QR Scanner Park Vehicles

Jul 2023 - Oct 2023

Backend Developer

- Built and optimized the application using Node.js, Express.js, and MongoDB.
- Enabled users to scan QR codes to submit vehicle details and receive real-time directions.

• TableTrek

Feb 2023 - Jul 2023

Backend Developer

- Built and optimized RESTful APIs using Node.js, Express.js, and MongoDB.
- Implemented advanced authentication and authorization mechanisms.

EDUCATION

• Babu Banarasi Das Engineering College (BBDEC)

Lucknow

Bachelor of Technology in Computer Science and Engineering

2020-2023

• Handia Polytechnic Handia

Prayagraj2017-2020

• Azad Hind Inter College Nizamuddin Pura

Mau2015-2016

10th Class from Uttar Pradesh Board

Diploma in Information Technology

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, HTML5, CSS3

Frameworks and Libraries: ReactJS, NodeJS, ExpressJS, Bootstrap, Tailwind CSS, BunJS

Databases: MySQL, MongoDB, PostgreSQL, Redis, DocumentDB

Tools and Technologies: RESTful APIs, Authentication and Authorization, AWS Face Rekognition, Real-time Systems

CERTIFICATIONS

Certification: View Certification

Interests

- Full-Stack Development
- API Design
- Scalable Architectures
- Real-time Applications
