MOHD AQIB KHAN

+91 7905559878 • uceraqib786@gmail.com • linkedin.com/in

SUMMARY

Full-stack developer with experience in designing, building, and launching web applications. Proficient in front-end and back-end technologies, including **Angular, HTML, CSS, JavaScript, TypeScript, Node.js, Nest.js,** and **Sequelize**. Skilled in database management with **MySQL** and **PostgreSQL**. Experienced in automating **CI/CD** workflows using **Docker** and **Jenkins** and proficient with **Git** for version control. Successfully integrated AI tools like **ChatGPT** to streamline prototyping, debugging, and productivity enhancement. Dedicated to creating scalable, maintainable solutions while keeping pace with evolving development standards.

TECHNICAL SKILLS

• Angular	• Node.js	• PostgreSQL	• Javascript	• Typescript
• Firebase	• MySQL	• Nest.js	• Docker	• Jira/ClickUp

ACHIEVEMENTS / AWARDS

- Earned three-time client commendations for on-time delivery of sprint projects using Agile methodologies, achieving a 20% reduction in delivery time through workflow optimization and enhancing client satisfaction.

PROFESSIONAL EXPERIENCE

Daffodil Software, Hisar, Haryana: Associate Software Developer   *Mar 2023 – Present*

- Engineered user-focused features, enhancing front-end and back-end performance and achieving a 50% increase in user engagement.
- Enabled seamless communication between application layers, reducing response times by 20% and improving overall system efficiency.
- Managed three projects and mentored two junior developers, achieving 100% on-time delivery and enhancing their skills by 80%.

Daffodil Software, Hisar, Haryana: Junior Associate Software Developer/ Trainee   *Nov 2021 – Feb 2023*

- Developed reusable Angular components and shared modules, enhancing the front-end development process and boosting efficiency across a team of 20 developers.
- **Collaborated on building and integrating Node.js RESTful APIs**, improving data flow efficiency between front-end and back-end systems by **25%** and ensuring seamless communication for optimized performance.
- Diagnosed and resolved over 25 critical issues a week in collaboration with QA and design teams, improving system reliability by 60% and reducing downtime by 40%

KEY PROJECTS

Suuchi Grid   *Nov 2022 – Present*

- Delivered 40+ user story-driven features and resolved infrastructure-specific issues using **Angular**, enhancing system stability and functionality.
- Developed RESTful APIs and export functionalities for PDF and Excel using **ExcelJS** and **jsPDF**, improving data-sharing processes by 60%.
- Optimized database queries to improve API response times, reducing data retrieval latency by 20%.
- Set up SMS and email systems via **SendGrid** and **Twilo**, achieving 95% reliability in client communications.
- Conducted 50+ code reviews a week, proposed 30+ feature enhancements, and prepared production-ready branches, resulting in a 30% reduction in deployment errors.

Workfeed   *Nov 2021 - Jul 2022*

- Led the development of key features for Workfeed's project management platform using Angular and Node.js, driving seamless front-end and back-end integration and improving system efficiency by 40%
- Designed mobile-friendly, responsive user interfaces, improving user satisfaction by 60%.
- Enhanced server-side processes with PostgreSQL and Node.js, reducing data processing times by 40%.

EDUCATION

Bachelor of Technology, Computer Science and Engineering   *Graduated May 2022*

Dr. A.P.J. Abdul Kalam Technical University   *8.2 GPA*
Prayagraj, United College of Engineering and Research
