WORK EXPERIENCE

NodeJs Developer

Flydocs

04/2023 - Present

Vadodara, Gujarat

Flydocs is an **asset management solution provider** with the aviation industry's most comprehensive solution for **creating value out of aircraft maintenance data**.

Achievements/Tasks

- Project Name: **Feed Revamp**
- Collaborated with cross-functional teams to revamp the "Feed Revamp" project, an essential component of aviation asset management.
- Utilized Node.js, MySQL, Redis, BullQueue, Docker, and Microsoft Azure in the development process.
- Played a key role in implementing robust features and functionalities within the "Feed Revamp" project, ensuring seamless integration and performance.
- Employed Docker and Microsoft Azure for seamless integration and deployment.
- Engaged in Agile methodologies for streamlined project management and adaptability.
- Actively participated in sprint planning, daily stand-ups, and retrospective meetings.
- Worked collaboratively to troubleshoot technical issues and foster innovation.
- Played an integral role in the overall development and evolution of "Feed Revamp," contributing to its effectiveness as a critical tool in aviation asset management.

Software Developer

Lobb Logistics

10/2022 - 03/2023

Bangalore

Managed marketplace enabling truckers and transporters to transact transparently, efficiently and profitably.

Achievements/Tasks

- Project Name: **Lobb office/truck/web**
- Collaborated on the "Lobb" project, encompassing office, truck, and web functionalities, leveraging Lambda Functions, Map State Machine, S3 storage, Whatsapp APIs, and PostgreSQL for seamless integration.
- Contributed to the development of "Lobb," utilizing Lambda Functions for serverless computing and Map State Machine for efficient workflow management.
- Worked with S3 storage to store and retrieve data across different components of the "Lobb" project, ensuring scalability and reliability.
- Engaged in Agile methodology to drive iterative development cycles, fostering collaboration and adaptability to deliver optimal solutions for office, truck, and web functionalities.
