PROFILE

As an innovative working professional with over 3 years of experience as a Software Developer, I am highly motivated and eager to expand my knowledge of technology. I am passionate about developing new things and have received extensive training in software development.

PROFESSIONAL EXPERIENCE

Software Developer

AlphaMoney: RBI-Registered Fintech Company

07/2023 – present
Delhi, India

- Developed a blockchain-based KYC solution using Polygon, Web3, Solidity, smart contracts, and IPFS.
- Implemented scalable RESTful API services using JavaScript with Node.js and Express.js and integrated with MongoDB.
- Built an investor dashboard using React.js with seamless API integration for real-time data visualisation, portfolio tracking, and actionable insights.

Analyst

Capgemini

09/2021 – 03/2023
Pune, Maharashtra

- Coordinate with the web development team to design user interfaces for clients and websites using HTML, JavaScript, and ReactJS.
- Develop and code components, which includes debugging issues, diagnosing root causes, and identifying solutions.

EDUCATION

B.Tech CSE, Computer Science

DIT University

08/2017 – 07/2021
Dehradun

SKILLS

- JavaScript, React.js, Node.js, Express, MongoDB, RESTful APIs, MySQL, DBMS, SQL, Redis, Socket.IO

CERTIFICATES

- Associate Cloud Engineer [🔗](#)
- JavaScript [🔗](#)
- Java

PROJECTS

Project Title: Real-Time Sentiment Analysis for Customer Feedback

Build a real-time sentiment analysis system that processes customer feedback from multiple sources using Apache Spark and Hadoop. Classify sentiments as positive, negative, or neutral, and display trends on dynamic dashboards to support business decision-making.

E-commerce Website

Build a scalable e-commerce app using the MERN stack with features like product browsing, authentication, shopping cart, and payment integration.

INTERESTS

I'm drawn to AI because of its ability to uncover patterns and insights that humans might miss, and I love exploring it.
