 Sports Nerve Business (sportsnerve business) App Link :- https://play.google.com/store/apps/details?id=com.sportsnerve.facility&pcampaignid=web_share

E-Yugam

Developed backend of E-yugam, a hybrid platform combining the functionalities of Urban Company and e-commerce.
Integrated service booking and product purchasing features for a seamless user experience.
Implemented a social feed system allowing users to post, interact, and engage within the app.
Created a community feature enabling users to form or join groups for discussions and collaborations.
Ensured a scalable architecture with focus on user engagement and community-building.

Actis

Developed multiple expense form and invoice form upload by AI in user panel.
Actis is a global investment firm focused on the private equity, energy, infrastructure, and real estate asset classes.
It is focused on investments in emerging markets in Africa, China, India, Latin America, South East Asia, the Middle East and Eastern Europe.
