 Shubham Ramavat

## Education

### BE In Computer Engineering

VVP Engineering College

2019-23 Qualified with 8.10 CGPA

### Diploma in Computer Engineering

AV Parekh Technical Institute

2017-2020 Qualified with 8.45 CGPA

## Technical skills

- JavaScript
- TypeScript
- Java
- Kotlin
- Object-C
- Swift

## Tools

- React Native
- Xcode
- Android Studio
- Git
- Github
- Firebase

## Experience

### React Native Developer

#### Logistics Infotech (May 2023- Present)

- As a React Native developer, I design, develop, and maintain mobile applications for iOS and Android.
- I've contributed to the successful delivery of 5+ projects, collaborating with cross-functional teams to create user-friendly, high-performance apps.

### Angular Training

#### Asite Solutions (Jan - Apr 2023)

- I completed a project utilizing the PrimeNG library and PostgreSQL database in an Angular framework.
- Through this project, I have gained valuable experience in working with advanced libraries and databases in Angular

## Projects

### MelodyMix

- A platform for music enthusiasts to connect and engage. Tracks most-lined to songs, creates personalized playlists, and builds unique musical archetypes.
- Enables real-time discovery of local and global music trends, Fosters connection withing the music community.

### DriveAd

- DriveAd helps drivers earn by wrapping vehicles with ads, monetizing daily commutes and ride share trips.
- I contributed by implementing location tracking for accurate mileage and campaign performance analysis on android and iOS.
