PROFESSIONAL SUMMARY

- Results-driven **Full-stack Developer** with 2.5+ years of experience in **ReactJS**, **Redux**, **NodeJS**, and **PostgreSQL**.
- Expertise in **frontend development, API integration**, and **backend optimization**.
- Skilled in **responsive design**, **state management**, and **database management**, driving system performance improvements.
- Adept at delivering projects on time and enhancing user experience in **collaborative environments**.

KEY SKILLS

- **Frontend Development:** ReactJS, Redux, JavaScript, HTML5, CSS3, TailwindCSS, Bootstrap, Material UI.
- **Backend Development:** NodeJS, Apollo Server, MoleculerJS, MySQL, PostgreSQL.
- **Database Management:** MySQL, PostgreSQL, MongoDB.
- **Other Technologies:** GraphQL, RESTful APIs, Python (Django), AngularJS
- **Design Tools:** Adobe Photoshop, Illustrator, InDesign.

PROFESSIONAL EXPERIENCE

Al Saad Technology LLC, Sharjah   *AUG 2023 - JAN 2025*
Software Engineer & IT Support

- Delivered high-performance **frontend** for **Coordees** using **ReactJS**, **Apollo Client**, and **TailwindCSS**, increasing user engagement by 30%.
- Streamlined **state management** with **Redux**, reducing complexity and improving maintainability.
- Developed a robust **backend** with Apollo Server and **MySQL**, optimizing data flow and ensuring efficient data handling and storage.
- Integrated **third-party APIs** to enable seamless communication between external services and the platform, improving data retrieval and processing speed.
- Provided **IT support**, resolving hardware/software issues, minimizing downtime.
- Optimized **network performance**, improving bandwidth and boosting overall operational efficiency.

Golden Jaguar Printing Press LLC, Dubai   *JUNE 2023 - JULY 2023*
Graphic Designer

- Designed visually compelling **marketing materials** using *Adobe Photoshop*, **Illustrator**, and **InDesign**, boosting brand visibility by 20%.
- Streamlined the design approval process by implementing a structured feedback system, reducing revision cycles by 15%.

Innovation Incubator Advisory Pvt Ltd, Trivandrum   *JULY 2022 - FEB 2023*
Junior Software Developer

- Enhanced usability of **1000X** and **Fincto** platforms by developing new components in **ReactJS**, boosting customer satisfaction.
- Modernized UI by migrating **Material UI** components to **React Bootstrap**, ensuring a consistent user experience.
- Increased **application stability** by resolving critical bugs, improving reliability.
- Integrated **APIs** to enable seamless **backend communication**, improving **data accessibility** and reducing response times.

Innovation Incubator Advisory Pvt Ltd, Trivandrum   *FEB 2022 - JUNE 2022*
Software Developer Intern

- Collaborated with the **AI team** to develop a **mail filtering platform** using **ReactJS (CoreUI)** and **Redux**, reducing HR email processing time by 50%.
- Designed UI components with **Material UI**, boosting user adoption.
- Contributed to **backend development** with **NodeJS**, **MoleculerJS**, and **PostgreSQL**, ensuring efficient data handling.
- Improved **API performance**, enabling seamless communication between frontend and backend.

EDUCATION

MES College of Engineering, Kuttippuram   *AUG 2016 - MAY 2020*
B. Tech. in Electronics and Communication Engineering

CERTIFICATIONS

- *Full Stack Developer Certification Course a complete full stack developer training* from G-TEC Computer Education
- *The Complete Javascript Course 2024: From Zero to Expert* from Jonas Schmedtmann through Udemy
- *React - The Complete Guide 2024 (incl. Next.js, Redux)* from Academind by Maximilian Schwarzmuller through Udemy
