SUMMARY

Results-driven Full-Stack MERN Developer with expertise in TypeScript, Next.js, and Rust, building high-performance, scalable web applications. Crafting seamless front-end experiences using React, Next.js, and Axios, and developing robust back-end solutions with Node.js and Express.js. Proficient in MongoDB for database management and leveraging TypeScript for type-safe development. Experienced in integrating Rust for performance-critical applications. Adept at optimizing APIs, implementing best practices, and delivering innovative solutions in fast-paced environments.

WORK EXPERIENCE

Next Future Genz   **May 2024 - Present**

- **Technology Used:** HTML, CSS, React.js, Javascript, Node.js, Expres.js, Rust, typescript and Next.js
- Developed a full-stack web application for end customers to place orders and support business growth for owners.
- Built dynamic interfaces using Next.js, React, Rust, MUI, HTML, CSS, and JavaScript.
- Designed robust APIs and business logic using Node.js and TypeScript.
- Managed data storage and retrieval with GCP Firestore, MongoDB, and local storage solutions.
- Collaborated with the team to ensure seamless integration and high-performance UI/UX design.

Webskyne   **April 2023 - March 2024**

- **Technology Used:** HTML, CSS, React.js, Javascript, Node.js, Expres.js and Mongo BD
- Developed and optimized user-friendly frontend components for clients' websites, utilizing React, HTML, CSS, and JavaScript ot enhance user experiences.
- Collaborated closely with team members to meet project timelines and fulfill client specifications, ensuring seamless integration of frontend components with the MERN (MongoDB, Express.js, React, Node.js) stack for efficient and scalable web applications.
- Engaged ni cross-functional teamwork ot gather project requirements, devise technical solutions, and deliver superior-quality products that exceeded client expectations, emphasizing clear communication and effective collaboration throughout the development lifecycle.

EDUCATION

Bachelor of Technology   **Aug 2018 - June 2022**

Greater Noida Institute of Technology
- Specialization in Electronics and Communication.

ADDITIONAL INFORMATION

- **Technical Skills:** MongoDB, React.js, Next.js, Node.js, HTML, CSS, Javascript, GCP, Rust and Typescript
- **Languages:** English and Hindi
