OBJECTIVE

A seasoned React Native developer with a proven track record of over 2 years, exhibiting a strong eagerness to learn and evolve alongside cutting-edge technologies. Known for consistently delivering projects on schedule and contributing positively as a collaborative team member.

EDUCATION

JUNE 2017- 2020

B.C.A, S.D COLLEGE OF MANAGEMENT STUDIES, MUZAFFAR NAGAR, UP

JUNE 2020- 2022

M.C.A, S.D COLLEGE OF MANAGEMENT STUDIES, MUZAFFAR NAGAR, UP

SKILLS

Technical Skills: React Native, Javascript, Redux, Html-css, Xcode, Visual Studio Code, Android Studio, Firebase

Tools: Git Version Control

Soft Skills: Communication, Interpersonal Skills, Leadership, Teamwork, Problem-Solving, Adaptability, Time Management

EXPERIENCE

MAY 2022 – PRESENT

ASSOCIATE REACT NATIVE DEVELOPER, TEAMARCS TECHNOLOGIES PVT LTD

Roles and Responsibilities:

- **API Integration:** Design and implement efficient API consumption strategies to interact with backend services, ensuring smooth data flow between the mobile app and the server.
- **Feature Enhancement:** Continuously improve and innovate on existing features, introducing new functionalities like daily polls, geo-location validation, survey prioritization, and IP uniqueness checks.
- **Cross-platform Development:** Ensure that the app performs optimally across Android and iOS platforms, leveraging React Native's cross-platform capabilities.
- **Notification & Permission Handling:** Implement and manage features such as push notifications, requesting permissions (e.g., location, notification), and ensuring proper background service functionality.
- **Quality Assurance & Testing:** Write unit tests and perform thorough testing of new features and bug fixes to guarantee high-quality code.
- **App Deployment & Monitoring:** Manage the app deployment process, handle app store submissions, and monitor post-release performance to address any live issues swiftly.

PROJECTS

PROJECT Title: - Panel Management

Duration: - May 2022 – Present

Domain: Market Research

Description: This is a React Native-built mobile application designed for Panel Management. The application serves as a robust tool for user administration within the platform. Acting as a mediator for panelists, it enables various functionalities such as conducting daily polls, prioritizing surveys, validating geo-locations, ensuring unique IP addresses, and implementing URL protection for panelist validations as per admin requirements during survey setup.

Live Projects on App Store and Play store: - **Mahogany Minds** – A survey app exclusively available on the App Store, live in U.S.

Goopoll – A survey app available on both the App Store and Google Play, active in the United Kingdom.

MRTS – An application live on both platforms, serving users in Cambodia.
