FRONT END DEVELOPER - *leveraging +3 years of experience*

Front-End Developer with 3+ years of experience in building responsive web and mobile applications using HTML, CSS3, JavaScript, React.js, React Native, and Redux. Proficient in deploying applications using Azure Dashboard and managing version control with GitLab. Committed to delivering high-quality, maintainable code while optimizing performance and ensuring cross-platform compatibility.

CORE COMPETENCIES

- **Front-End Development:** HTML5, CSS3, JavaScript (ES6+), React.js, React Native, Redux
- **UI Libraries & Frameworks:** Material UI, Ant Design, Chakra UI, Next UI, Tailwind CSS
- **API Integration:** RESTful APIs, Shopify APIs, Redux Persistor, Axios
- **Cloud & CI/CD:** Azure Dashboard, GitLab
- **User Engagement:** One Signal Push Notifications, Health Kit Integration, Referral Tracking
- **Security & Verification:** Secure Payment Gateway Integration, Yoti Age Verification

PROFESSIONAL EXPERIENCE

Webnyxa Technologies Pvt Ltd., Noida **Front End Developer**	*April 2021 - Present*

I have successfully developed and delivered innovative mobile and web applications. Key achievements include:

1) *Actively Black (React Native Shopify Mobile App) :-*
- A React Native e-commerce application with product catalog browsing, secure checkout, and user account management (login, signup, order tracking).
- Fitness Module: Implemented advanced features like calorie tracking, point assignment, and personalized fitness plans to enhance user engagement.
- Push Notifications: Integrated One Signal for timely updates and personalized offers, increasing app stickiness.
- State Management: Utilized Redux Saga for efficient data persistence and seamless user experience.

2) *SOVA (Enterprise Application Development) :-*
- Designed and developed an enterprise-grade dashboard using React.js and Material UI for real-time operational insights.
- Real-Time Data Integration: Leveraged REST APIs and Redux Persistor for seamless data integration and offline functionality.
- Advanced Security & Management: Implemented RFID and Bluetooth technology for enhanced security, incident reporting, and efficient tour management.
- Lost and Found Module: Created a user-friendly module allowing visitors to review items, select shipping, and pay securely, improving guest satisfaction and operational efficiency.

3) *Copyartwork AI (Mobile App) :-*
- Developed "**Copyartwork AI**" a React Native mobile application leveraging cutting-edge AI technology to generate high-quality vector images from user-provided text descriptions.
- Implemented key features such as seamless image generation, secure purchase options for watermark-free downloads, and in-app previews, enhancing user experience and driving customer satisfaction.

4) *LeadBuzz - (React Native Expo Mobile App) :-*
- Smart Dashboards & Lead Distribution: Created role-based dashboards for productivity and automated lead assignment with balanced workload distribution.
- Sales Pipeline & Communication: Implemented lead scoring, reminders, and direct messaging via Email, SMS, and WhatsApp, including a WhatsApp module supporting text, audio, video, and PDF sharing.
- Quotations, Itineraries & Payments: Enabled instant quotation and itinerary creation with seasonal pricing and vendor margin management, along with payment tracking, API banking, and automated reminders.
