WORK EXPERIENCE

Software Developer

Hiring Tech

07/2024 - Present

Indore, India

Achievements/Tasks

- Developed and maintained 6+ full-stack web applications using MongoDB, Express.js, React.js, and Node.js (MERN stack) , enhancing system performance and scalability.
- Led code reviews and mentoring sessions, improving development efficiency and reducing bugs by 20% .
- Built reusable backend services and optimized database queries, reducing API response time by 35% .
- Designed and implemented secure authentication and authorization using JWT and bcrypt , improving system security and user data protection.
- Developed dynamic and interactive frontends using React.js and Next.js , improving user experience and engagement by 25% .
- Integrated third-party APIs and payment gateways into e-commerce platforms using Node.js and React.js , increasing transaction success rates by 30% and expanding payment options for users.

Frontend Developer

Hiring Tech

07/2023 - 06/2024

Indore, India

Achievements/Tasks

- Expanded and maintained 5+ responsive web applications using React.js and Next.js , improving page load speed by 30% through optimized code and server-side rendering .
- Created reusable UI components with Tailwind CSS , reducing development time by 25% and enhancing design consistency.
- Collaborated with cross-functional teams (designers and backend developers) to deliver 3+ projects within tight deadlines , achieving 100% client satisfaction .
- Identified and resolved key performance bottlenecks , reducing rendering time by 40% .
- Integrated RESTful APIs , ensuring seamless data flow in 4+ applications and increasing user engagement by 20% .

EDUCATION

B-Tech

Institute of Engineering and Science, IPS Academy

2018 - 2022

Indore

Courses

- Computer Science & Engineering

Higher Secondary Certificate

Sunshine Academy

2017 - 2018

Indore

Courses

- Mathematics, Physics, Chemistry

SKILLS

HTML5

CSS3

JavaScript

React.js

Next.js

Node.js

Express.js

MongoDB

Firebase

Sqlite

TailwindCSS

Bootstrap

Redux

Api Integration

Payment Gateways

Git | GitHub

Postman

PERSONAL PROJECTS

WorkWise, Task Manager

- Engineered a full-stack administration portal , enhancing task management and tracking efficiency by 50% , while implementing user role-based access control for improved security .
- Executed file uploads via Cloudinary API , reducing image load times by 50% and ensuring 99.9% availability for stored assets.
- Enforced JWT-based authentication , improving system security by eliminating unauthorized access and reducing login failures by 40% . Utilized Redux for state management, enhancing data consistency and application performance .

School Management Portal

- Improved 10+ modules and features , including New Admission, Fees Management, Student Attendance, and Student Certificates , improving school administration efficiency by 60% .
- Managed real-time data submission from 50+ form-based inputs , ensuring real-time rendering on the admin panel for better decision-making.
- Optimized UI performance , enabling 1000+ student records to load seamlessly on a single page using React Suspense and Lazy Loading , reducing load times by 40% .
- Built an admin dashboard displaying employee details and task assignments , increasing workflow visibility and boosting task completion rates by 30% .

ACHIEVEMENTS

Star of the project

Recieved this award for completing critical task given in a project, Implement Payment Gateway Integration

Road Safety Program

Participated in Road safety measures, attended a cross road to maintain proper use of traffic rules
