• c-19/7 mukund vihar karawal nagar Dehli-110094

Career Objective

3+ years of experienced as a Senior Software Engineer highly skilled in designing & deploying the new applications and debugging & modifying the existing ones. Adept at writing codes for Express.js and Type script and Node.js applications & reviewing test protocols for application testing. Proficient in spearheading a team of software engineers and liaising with the clients to understand their requirements & fulfilling the same with 100% quality assurance.

PROFESSIONAL EXPERIENCE

Project(1) with Torus infotech

Delhi, India

2022 - 2022

GigCX Marketplace is an online platform that connects businesses with a global network of independent contractors, primarily focused on providing customer experience services like customer support, allowing companies to access flexible workforce solutions for managing customer interactions while giving individuals the opportunity to work on a freelance basis with various brands across the world; essentially, it's a marketplace for "gig" customer experience work where companies can find temporary workers for specific customer service tasks.

- Project : Gigcx(Job Port)
- Technology and framework: Nodejs , Typescript, Nest.js
- Database: Mysql

Project(2) with Torus infotech

Delhi, India

2022 - 2023

In this Project we using MVC Framework and Implemented jest test case and automated testing processes to ensure software reliability. Contributed to the architecture and design of new features and modules. Designed and optimized database schemas for improved performance and scalability. Resolved bugs and issues reported by QA and end-users in a timely manner. Developed RESTful APIs to enable seamless integration between applications. Mentored junior developers, providing guidance on best practices and coding standards.

- Project : Ebotify Product (MICRO-SERVICES BASED)
- Technology and Framework : Node.js , Typescript, Express.js, Jest Framework , React, Html, Css, Javascript
- Data-Base : MongoDB, Redis , Postgress

Project(3) with Torus infotech

Delhi, India

2024 - 2024

Developed and maintained web applications from scratch using Nodejs, Typescript and Express.js Framework. Collaborated with product managers to translate business requirements into technical specifications. Conducted code reviews to ensure code quality, performance, and adherence to coding standards. Collaborated with cross-functional teams to design and implement scalable software solutions. Participated in the full software development lifecycle, from requirements gathering to deployment and maintenance.

- Project : Chatpm(Intelligent Virtual Project Management Assitance)
- Technology and Framework : Nodejs, Express.js, Typescript
- Data-Base : MongoDB, Mssql

Project(4) with Torus infotech

Delhi, India

2025 - Present

Developed and maintained web applications with Node.js, Javascript, Typescript, Express.js Framework. Collaborated with cross-functional teams to design and implement scalable software solutions. Conducted code reviews to ensure code quality, performance, and adherence to coding standards. Participated in the full software development lifecycle, from requirements gathering to deployment and maintenance. I have completed this project from the scratch.

- Project : Huli Practice For Medical Centers
- Technology and Framework : Nodejs, Express.js, Typescript
- Data-Base : MongoDB, Mysql

SKILLS SET

Node js · Typescript · Express · Javascript · Nest.js · MongoDB · Postgress · Redis · My SQL · MS SQL · RBAC · Rest Apis · CRM(ZOHO) · Postman · Swagger · GIT · Whatsapp api integration · Meta api integration · Socket IO · JWT Authentication · Winston Logger and Grafana · Graph-QL · Twilio · Docker · CI/CD · AZURE(Cloud) · Azure Function · Node cache

EDUCATION

Swami Vivekanand College Of Engineering Indore(M.P)

B.Tech(CSE) - 8 cgpa

2019 - 2023

DECLARATION

I hereby declared that all the details furnished above are true & correct to the best of my knowledge & belief
