OBJECTIVE

Motivated computer science graduate from Nowrosjee Wadia College, Pune, with strong Java development skills and a passion for software development. Seeking entry-level opportunities to apply technical expertise, learn from industry professionals, and contribute to team success with fresh ideas and dedication

EDUCATION

Bachelor Of Computer Science, Nowrosjee Wadia College, Pune (7.21/10)   2020-2023

SKILLS

Programming Languages	Java, JavaScript, TypeScript, Python.
Frameworks & Libraries	Angular-18, JSP, Servlet,Spring Framework, Spring Boot, Spring Data JPA, Hibernate, REST APIs.
Development Tools & Platforms	GitHub, VSCode, Eclipse, Maven, Git, Postman.
Databases	MySQL, PostgreSQL, Firebase.

EXPERIENCE

EDGE-JAVA Course   JAN 2024 - APRIL 2024
FORTUNE CLOUD

- Completed a 4-month course focused on Java development and Spring Boot for building RESTful APIs.

- Gained hands-on experience in object-oriented programming, exception handling, and PostgreSQL for database management.

- Collaborated on projects, enhancing teamwork and communication skills.

PROJECTS

Online Pilgrimage: Crafted an intuitive online pilgrimage platform by integrating a **Spring Boot** backend with a responsive frontend using **HTML, CSS, JavaScript, and Bootstrap**, along with **PostgreSQL** for efficient database management, ensuring a seamless user experience.

CRUD Mini Project: Built a project using **HTML, CSS, and JavaScript**, along with the **Spring MVC** framework and **JDBC**. Developed a Register/Login page with functionality to read, update, and delete data from the database through a user-friendly interface.

Library Automation System: Developed a system to modernize outdated library management processes with advanced technology. Designed and implemented the frontend using **HTML, CSS, and JavaScript**, ensuring a user-friendly interface. Utilized **Java** for the backend and **PostgreSQL** for database management, enabling efficient library operations.

Portfolio: Developed a personal portfolio using **Angular 18** to showcase my projects and skills. Implementing **responsive design principles** for cross-device compatibility and integrating **Bootstrap** to enhance UI/UX.
