🖼 49/10 S Bloack Phase 3 , DLF Nathupr , Sec 24 Gurgaun, 122002

Programming & Web Technologies

JavaScript, PHP, Node.js, HTML, CSS, Bootstrap

Full-Stack Development

MERN Stack (MongoDB, Express.js, React.js, Node.js)

Databases

MongoDB, MySQL, SQL

Backend Development

RESTful APIs, JWT Authentication, Middleware, Server-side scripting, AWS EC2 (Elastic Compute Cloud), Deployment

Frameworks & Libraries

React.js, Express.js, JSX

Integrations & APIs

Payment Gateway Integration (Razorpay), SMS API Integration, Google APIs (Google Graph, Google OAuth)

TOOLS AND SOFTWARE

Version Control: Git
Development & Debugging: VS Code, Postman, FileZilla
Diagram & Modeling: Draw.io

Database Management: MySQL, MongoDB

EDUCATION

○ **B.Tech. in Information Technology**
Hemvati Nandan Bahuguna Garhwal University (HNBGU) | **Graduated: 2018**

CARTIFICATES

MERN Stack Development – Internshala *(1 year)*

Availability

Available for immediate joining

OTHER INTEREST

Interested in philosophy, continuous learning, and self-improvement, with a focus on Hindu Shastras, Gaudiya Sampradaya, and technology trends.

JOB OBJECTIVE

Seeking a **MERN Stack Developer** role where I can leverage my expertise in **Node.js, Express.js, MongoDB, and React.js** to build scalable applications. **Available for immediate joining.**

PROFILE SUMMARY

MERN Stack Developer skilled in **Node.js, Express.js, React.js, and MongoDB**. Hands-on experience with API development**, AWS EC2**, and secure authentication (**JWT, OAuth**).

WORK EXPERIENCE

Twom global, Dehradun |Feb 24 – Feb 25 | Backend Web Developer

Developed **scalable backend solutions** using **Node.js, Express.js, and MongoDB**, optimizing data with **React**, **MongoDB Aggregation Pipelines**. Built **RESTful APIs**, integrated **AWS EC2** for scalability, and implemented **JWT & OAuth** for security. Enhanced performance with collaborated with frontend teams for seamless integration. Maintained **clean, modular, and well-documented code** following best practices.

CodeWare It Pvt Ltd, Dehradun | Feb 23 -Jan 24| Backend Web Developer

Developed and maintained the **MERN stack** application, ensuring efficient backend operations with **Node.js and MongoDB** while optimizing database structures for scalability and performance. Designed and implemented secure **authentication mechanisms** and enhanced **API integrations** to improve system connectivity. Built responsive and interactive **frontend interfaces** using **React.js, HTML, CSS, Bootstrap, and JavaScript**, ensuring seamless user experience. Focused on **code optimization, debugging, and performance enhancements**, ensuring the platform's stability, reliability, and smooth functionality.

PROJECT PORTFOLIO

➡ Developed a **Travel Management Website** with an **interactive dashboard** using **Node.js, Express.js, and JavaScript**, integrating **MongoDB Aggregation Pipelines** for efficient data processing and **AWS for scalable deployment**.

➡ Developed a **Hotel Property Management System (PMS)** with a booking engine using **MERN Stack**. Integrated **real-time data sync**, secure **payment gateway**, and **multi-tiered dashboards** for seamless access. Optimized **API efficiency** and enhanced UI with **React.js, Bootstrap, and CSS** for a smooth user experience.

➡ Developed and maintained a MERN stack **medical service platform** using **Core PHP and MySQL**, ensuring **secure patient record management, service scheduling, and provider availability**. Built a **responsive frontend** with **HTML, CSS, Bootstrap, and JavaScript**, enhancing user accessibility across devices. Integrated **API services and secure payment processing**, improving platform efficiency and user experience.

➡ Developed and maintained **Ahmedabad Railway** Running Room, a **meal management** and accommodation system for railway employees using PHP and MySQL, enabling meal order management, room availability checks, and booking processes. Built a responsive frontend with HTML, CSS, and Bootstrap, ensuring seamless accessibility across devices. Integrated real-time updates using JavaScript and Ajax, enhancing user experience with dynamic room status and meal order tracking.

➡ Developed and maintained a **Railway Colony Management System** for **efficient room allocation and maintenance** using **PHP and MySQL**, handling **room assignments, maintenance scheduling, and staff records**. Built a **responsive frontend** with **HTML, CSS, and Bootstrap**, ensuring seamless access and management across devices.

➡ Developed and maintained **FoodSri**, a food delivery system using **PHP & MySQL**, featuring **secure payment integration (Razorpay API), restaurant/admin dashboards, and a responsive frontend** built with **HTML, CSS, Bootstrap, and JavaScript** for seamless user experience and order management.
