

Summary

Highly experienced **React Native Developer** with approx **4 years** of expertise in designing, developing, and optimizing **cross-platform mobile applications**, including **video streaming, communication, and e-commerce solutions**. Proficient in **React Native, TypeScript, Redux, and API integration**, with a strong focus on delivering **clean, maintainable code** and **pixel-perfect, responsive UI/UX designs**.

Over the past four years, I have successfully launched **six major applications** on both the App Store and Play Store, implementing **state management best practices** and **modern mobile development trends**. A collaborative team player with excellent communication skills and a passion for continuous learning.

Technical Skills

- ❖ **Programming Languages:** JavaScript, TypeScript
- ❖ **Frameworks & Libraries:** React Native, React, React Navigation, Redux, Redux Thunk, Redux Saga, Redux Toolkit, Redux Persist, React Query, React Hooks, React Native Reanimated.
- ❖ **Databases:** MySQL, Oracle, SQL.
- ❖ **Version Control:** Git, GitHub, GitLab, Bitbucket.
- ❖ **Software Tools:** Xcode, Android Studio, VS Code, Postman, Reactotron.
- ❖ **Testing & Debugging:** Unit Testing, Code Reviews, Firebase Crashlytics, Sentry.
- ❖ **API Integration:** RESTful API, Asynchronous API calls.
- ❖ **Third-party Integrations:** Firebase, Push Notifications, Stripe, RazorPay, Google Sign-In, Google Maps, Apple Authentication, PubNub, WebRTC, Socket.IO.
- ❖ **UI/UX & Frontend:** Pixel-perfect, Responsive design across various screen sizes, Styled Components, CSS, HTML.
- ❖ **State Management:** Redux, Redux Thunk, Redux Saga, Redux Toolkit, React Query.
- ❖ **Collaboration:** Agile methodologies, Sprint planning, Cross-functional teamwork with Product Managers, Designers, Backend Developers, and QA Testers.
- ❖ **Other:** Focus on clean code, best practices, and staying up-to-date with mobile development trends.

Professional Experience

TechAhead | Software Engineer | [June 2023] - [Sep 2024]

- ❖ Setting the project from the ground and designing the app Architecture.
- ❖ Implemented Push Notification using Firebase.
- ❖ Implemented PubNub chat.
- ❖ Integrating third-party APIs and libraries to enhance application functionality.

- ❖ Create front-end modules with UI/UX design, Responsive design, maximum code reusability and efficiency.
- ❖ Implemented authentication and authorization mechanisms, enhancing security and user privacy.
- ❖ Used Redux with Redux Toolkit for state management and React Query for optimized API calls, enhancing data flow and performance.

Dudar Edtech Pvt Ltd | Software Engineer | [Apr 2022] - [May 2023]

- ❖ Participated in agile development processes, contributing to sprint planning and daily stand-up meetings.
- ❖ Implemented real-time chat and Video features using Socket.io and WebRTC.
- ❖ Implemented in-app Subscription functionality using Razorpay library.
- ❖ Employed Redux for efficient state management, alongside Redux-Thunk and Redux-Saga for seamless API calls and asynchronous data handling.

Codify Technology LLP | Software Engineer | [Oct 2020] - [Mar 2022]

- ❖ Setting user interface components for mobile applications on both Android and iOS platforms utilising React Native.
- ❖ Create front-end modules with maximum code reusability and efficiency.
- ❖ Develop responsive web-based UI using ReactJS.

Project Details

OnAir (B2C) (Aug-2024 to Present Day)

- ❖ **Overview:** Mobile App offering a variety of services at home. This platform will provide book services such as beauty treatments, haircuts, massage therapy, cleaning, plumbing, carpentry, appliance repair, painting etc.
- ❖ **Technologies Used:** React Native, React Query, Redux, Firebase, PubNub.
- ❖ **Role:** Lead application developer in the project.

Yona App (B2C) (July-2023 to Present Day)

- ❖ **Overview:** This application provides all salon services and Nail Art.
- ❖ **Technologies Used:** React Native, React Query, Redux, Redux Persist, Firebase, PubNub, Stripe.
- ❖ **Role:** React Native Developer.

Live Projects

Patel Liquor (B2B & B2C) : [App Store](#)

- ❖ **Overview:** This Class B app is designed to be user friendly for bars to order liquor.
- ❖ **Technologies Used:** React Native, Redux Saga, Redux Persist.

- ❖ **Role:** React Native Developer.

BigBonus : [Play Store](#) | [App Store](#)

- ❖ **Overview:** Mobile app providing fresh meat and seafood, grocery shopping, delivery services in India.
- ❖ **Technologies Used:** React Native, Razorpay, Redux, Thunk.
- ❖ **Role:** React Native Developer.

Meatigo Gourmet Meat Delivered : [Play Store](#) | [App Store](#)

- ❖ **Overview:** Mobile app providing fresh meat and seafood delivery services in India.
- ❖ **Technologies Used:** React Native, GraphQL, Map, Branch.io, Razorpay, Redux, Thunk.
- ❖ **Role:** React Native Developer.

ERIN | Employee Referrals : [Play Store](#) | [App Store](#)

- ❖ **Overview:** Job portal app designed for job seekers in the US.
- ❖ **Technologies Used:** React Native, Map, Sockets, Node.js, MongoDB.
- ❖ **Role:** React Native Developer, Team Lead

Dudar- Instant live tutoring (B2B) : [Play Store](#) | [App Store](#)

- ❖ **Overview:** Dudar is an instant live Doubt solving platform, where Tutors and Students connect 1 on 1 any time of the day.
- ❖ **Technologies Used:** React Native, Redux Saga, Razorpay, WebRTC, Socket.IO.
- ❖ **Role:** React Native Developer.

Dudar Tutor - Tech & Earn : [Play Store](#)

- ❖ **Overview:** Dudar Tutor is a mobile app where students can ask questions, seek conceptual explanations, and tutors provide instant solutions via live video calls.
- ❖ **Technologies Used:** React Native, Redux Saga, Razorpay, WebRTC, Socket.IO.
- ❖ **Role:** React Native Developer.

Academic Qualifications

- 🎓 **MSc (Electronics Engineering)** | Jamia Millia Islamia, New Delhi
- 🎓 **BSc (Instrumentation Engineering)** | Delhi University, New Delhi
- 🎓 **Senior Secondary (12th)** | Bihar Board, Bihar
- 🎓 **Secondary (10th)** | Bihar Board, Bihar

Certifications

- ❖ Mobile Development Architecture.
- ❖ AI-Tools: [Ai Tools](#) .
