- [Github Profile](#)

## SKILLS

- React.js, Next.js, Gatsby.js
- JavaScript (ES6+), TypeScript
- HTML5, CSS3, Tailwind CSS, Material UI
- Redux, Context API, React Query
- Node.js, Express.js, Nest.js
- REST APIs, GraphQL APIs
- Microservices & Serverless Architecture
- PostgreSQL, MongoDB
- Unit Testing (Jest, Cypress)
- AWS (Lambda, S3, EC2, API Gateway)
- Docker, Kubernetes
- Cloud & DevOps Best Practices
- MERN Stack, JAMstack

## EDUCATION

- Bachelor's in Computer Science – Indus University (2017 – 2021)
- Higher Secondary School Certificate (HSSC) – KTDMC (2013 – 2016)

## KEY STRENGTHS

- Performance Optimization
- Collaborative
- Scalable Architectures
- Cross-Functional Collaboration
- Deadline-Driven

## CERTIFICATES

- Certified Kubernetes Application Developer (CKAD) – CNCF
- React Nanodegree – Udacity

## PROFESSIONAL SUMMARY

Experienced Senior Frontend & Full Stack Developer with expertise in React.js, Next.js, Gatsby.js, and the MERN Stack. Skilled in building high-performance, scalable applications with JavaScript, TypeScript, Tailwind CSS, and Ant Design for frontend development. Proficient in Node.js, GraphQL, and REST APIs for backend solutions, with experience in AWS and Firebase to develop secure, cloud-based architectures. Focused on optimizing performance, enhancing user experiences, and implementing best practices in software development. Strong expertise in SEO, SSR, and automated testing to ensure reliability and efficiency. Dedicated to continuous learning and staying ahead of industry trends to deliver innovative and scalable solutions.

## WORK EXPERIENCE

### Horsefly Analytics 2021 - PRESENT Senior Frontend Developer

- Built interactive Mapbox GL JS visualizations, improving labour market analysis efficiency by 70%.
- Increased data accuracy by 60% by fixing API issues, ensuring reliable labour insights.
- Implemented SSR and caching strategies, reducing latency by 55% for a smoother user experience.
- Catalyzed data-driven staffing decisions with custom dashboards, reducing time-to-hire by 68%.
- Integrated Kendo PDF, enhancing data export capabilities and reducing report generation time by 80%.

### ACR Logistics 2019 - 2021 Full Stack Developer

- Modernized ACR Logistics app with React.js, Next.js & Node.js, mitigating data silos and accelerating retrieval speeds by 70%.
- Integrated AWS & Firebase, reducing server costs by 70% and enhancing cloud scalability.
- Revamped SSR with Next.js, boosting SEO rankings and cutting load times by 85%.
- Implemented real-time parcel tracking with GPS updates, reducing delivery delays by 55% and increasing customer satisfaction.
- Designed multi-role dashboards for admins, drivers, and users, improving operational efficiency by 45%.
- Accelerated performance, security, and scalability, ensuring the platform could handle 100K+ users with minimal downtime.

### EzyLegal 2018 - 2019 Frontend Developer

- Developed the ezyLegal platform using Next.js with SSR, reducing page load times by 80% and boosting performance.
- Crafted and optimized a mobile-friendly UI, boosting user engagement and retention by 88%.
- Integrated WordPress CMS, cutting content management effort by 70% and improving workflow efficiency.
- Enhanced legal document processing, reducing manual input time by 90% through automated forms and e-signature support.

### KodeGlobe 2017 - 2018 Full Stack Developer

- Built and maintained a responsive UI, leading to a 98% increase in user engagement and higher retention rates.
- Delivered multiple client projects, optimizing business operations and strengthening digital presence.
- Automated key processes like payments, customer interactions, and data management, reducing manual workload by 80%.
