PROFESSIONAL EXPERIENCES

Subcodevs Inc(May 2024 currently working here) React native and React.js

Designed and developed numerous **live iOS apps**, achieving high ratings and widespread adoption in the App Store. Led end-to-end development of mobile applications, from requirement analysis and design to deployment and maintenance.

Delivered innovative solutions across industries, specializing in **user experience**, **performance optimization**, and **secure integrations** with third-party APIs.

Played a key role in mentoring teams and driving projects through the **Software Development Life Cycle (SDLC)** and **Product Development Life Cycle**.

Kickr Technology (Feb 2023 - 12 Feb 2024) React Native

Identify the key features and functionalities of the app. User-friendly design with easy navigation UI. Identify the API you need to integrate into the application. This could include services for user authentication, data retrieval, or any other functionality the app requires.

Google Play Console:-upload .abb file in Google Play Store and manage Content Rating, and follow the steps to configure the release.

VedangSoft Private Limited (Feb 2020 - March 2021) React Native

Led the implementation of the **Cauvery calling** project using react native, resulting in a performance increase of 60%.

Collaborated with cross-teams to build the Pranee Core feature. Implemented react native UI enhancement and animations, resulting in a 45% increase in average sessions.

PROJECTS

1. **Pocketi**

Developed features like **Scan to Pay** (QR code payment integration) and **Chat Services** for enhanced communication.

Integrated payment platforms such as **Mobile Money** to simplify invoicing and streamline payment processes for small businesses.

2. **Catchwoo**

Catchwoo is a dating application for users. We are using the SDK of ZegoCloud for video calling configuration and for messaging ZEGOCLOUD's chat SDK and UIKit. Integrate Payment gateway PAYG for buying coins.

3. **Child Tracking**

This project gets calls, locations, messages, or even those late-night social media pings. But that's not it. It's like a safety locker too, keeping a backup of your data and making sure your phone is always in safe hands. With Phone Tracker, tracking background current location.

4. **MGAS**

This project helps to improve and enhance skills. He is a memory guru, motivational speaker, and life-changing counselor. He was always appreciated for his motivational part. This project is made with the help team and College Faculty.

5. GrocecyItem

Collaborated with cross-functional teams, including UI/UX designers and backend developers, to ensure seamless integration of features and a user-friendly interface. Using the Redux tool kit add the item to the cart.

Technical Skills

- **Mobile Development:** React Native, iOS Configuration, Android Studio.
- **Web Application:** React Js, CSS, Tailwind, Material UI.
- **Programming Languages:** JavaScript, ES6, Redux, Context.
- **Tools:** Xcode, GitHub, Firebase, REST APIs, Visual Studio, Bitbucket, GitLab, Clickup.
- **Methodologies:** Agile Development, SDLC, Product Development.
- **Specialized Integrations:** Payment Gateways, QR Code Scanning, Chat SDKs, Video calling SDK.
