Techuz Infoweb

01/2022-Present   *Ahmedabad, India*

Techuz infoweb; an Ahmedabad-based startup, excels in delivering innovating web and mobile app solutions. As a full Developer since January 2022, I've worked on cutting -edge projects using React, Next.js , Node.js , and AWS, contributing to the full development lifecycle and optimizing deployment processes.

🧠 TECHNICAL SKILLS

Frontend Development	React, Next, Angular,TypeScript, HTML and Bookstrap
Backend Development	Node.js, Express.js and SQL
Tools& Platforms	Git, npm, Yarn, AWS(EC2, S3) and CI/CD pipelines
Programming Paradigms	Object-Oriented Programming and Problem Solving
Additional Knowledge	Phaser, Basic Shell Scripts (Linux) and AWS Lambda

📐 PROJECTS

Realtor Marketplace - Buy/Sell/Rent

- The Realtor Marketplace is a subscription-based platform for buying ,selling, and renting properties in Singapore. It offers ad spaces for enhanced visibility, benefiting both users and realtors.
- Contributed to the Realtor Marketplace project from start to finish, working in weekly sprints to develop features using React, Next.js, and Node.js .
- Developed web scrapers for automating user verification processes and integrated HitPay for secure payment transactions.
- Collaborated closely with the team to refine user experience and optimize performance.

Schedash Home Inspectors CRM

- A scheduling and CRM dashboard for home inspectors.
- Focused on backend development with Node.js to automate data management, scheduling, and reporting.
- Built and optimized the frontend with React to enhance user interaction and operational efficiency.
- Integrated various CRM functionalities to streamline scheduling and improve client relationships.

🎓 EDUCATION

- ### B-tech in Computer Science
  Poornima University

  2018-2022   *Jaipur, India*
