## PROFESSIONAL SUMMARY

---

Goal-oriented MERN stack developer with **3 years** of hands-on experience in developing, and maintaining responsive web applications. Proficient in **JavaScript, Node.js, Express.js, React**, and **MongoDB**, with a strong understanding of front-end frameworks, **UI/UX** principles. Proven ability to collaborate effectively in cross-functional teams, deliver high-quality code on schedule, and adapt to new technologies.

## WORK EXPERIENCE

---

### Full Stack Developer

Real 11 Fantasy Sports, Noida

**March 2023 – Present**

- Created and optimized mobile APIs using **Node.js** and **Express** for Real11's fantasy sports app.
- Developed and maintained the admin panel with the **MERN** stack (MongoDB, Express, React, Node.js).
- Used **Redis** for caching to improve response times and reduce server load.
- Worked with design, product, and QA teams to integrate new features.
- Conducted performance optimization and debugging to ensure application reliability.

### Software Developer

Konstant Infosolutions, Jaipur

**March 2022 – Feb 2023**

- I completed two projects at this company, which marked the start of my career.
- Developed an admin panel using **EJS** in **Node.js**.
- Implemented Redux for efficient state management, ensuring consistent data flow.
- Enhanced efficiency in full stack development using **Node.js, Express, React, MongoDB, and Redux**.

## PROJECTS

---

### Call – Break Card Game

- \* Developed an online multiplayer Call Break card game using **Node.js** and **Socket.io**.
- \* Supports four players, three players and two players per game session with real-time gameplay and authentication.
- \* **Socket.io** enables seamless real-time communication between players.
- \* Features game room management, ensuring smooth matchmaking.
- \* Real-time score tracking after each round and Display of the winner at the end of the game session.

### Real 11 Fantasy Sports

- \* Developed and maintained the Admin Panel (front and back end) using **MERN** stack and Redis.
- \* Created and optimized mobile APIs for enhanced functionality.
- \* Implemented and managed **cronjobs** for automated tasks.
- \* Collaborated with teams for seamless integration of front-end and back-end systems.
- \* Redis implementation for all ludo tournaments and contests.

### Bravo

- \* Developed and maintained the Admin Panel using **EJS**.
- \* Created and optimized mobile **APIs** for enhanced functionality.
- \* Collaborated with teams for seamless front-end and back-end integration.
- \* Conducted code reviews and performance optimization.

### EMD (Event, Management and Dispatcher)

- \* This is a event management application, created by using **Node.js** and **React Native**.
- \* This project involved creating events for specific venues, where workers are assigned by the event manager
- \* Developed admin panel for this project using **EJS** in **Node.js**.

## TECHNICAL SKILLS

---

HTML, CSS, JavaScript, React JS, Redux, Node.js, Express.js, MongoDB, Redis, My SQL, Git, GitHub

## EDUCATION QUALIFICATION

---

**Jaipur Engineering College**

*Bachelor of Technology (CSE)*

**July 2018 – June 2022**

*Jaipur, Rajasthan*
