OBJECTIVE

Results-driven **Software Engineer** with **2.1+ years** of experience in **full-stack development**, specializing in e-commerce solutions, **payment gateway integrations**, and **real-time applications**. Proficient in **React.js** and **Node.js** for building scalable, high-performance web applications. Experienced in developing and deploying **custom Magento extensions**, secure payment solutions, and seamless API integrations. Seeking a full-time role to leverage my technical expertise, problem-solving skills, and passion for innovation in a dynamic, growth-oriented environment.

EDUCATION

Master of Computer Application, JS University 2022 - 2024

Relevant Coursework: Programming Concepts, Web Technologies, Software Engineering.

Bachelor of Computer Application, Allahabad State University 2019 - 2022

SKILLS

Technical Skills PHP (Magento), HTML, CSS, React JS, Redux, JavaScript, API Integration, RESTful API, OAuth, Node.js, MongoDB, Socket.IO, JWT.

Soft Skills Problem-Solving, Team Collaboration, Adaptability, Communication.

Development Tools PHP-Storm, Gitlab, VS Code, Postman.

EXPERIENCE

Software Engineer May 2023 - Present
Weblytic Labs, Noida, UP

- Developed custom Magento extensions, including payment methods and shipping solutions, enabling seamless e-commerce operations.
- Implemented and optimized payment gateways, shipping calculators, and custom features using PHP, MySQL, and Magento, improving transaction efficiency by 80%.
- Integrated third-party APIs for payment processors, shipping carriers, and tax calculations, ensuring real-time synchronization and error-free data transfer.

Application Developer Sept 2022 - April 2023
QuickEat Delivery Services LLP, Nuh, Haryana

- Designed and implemented an intuitive user interface for the QuickEat food delivery platform, enhancing user experience and facilitating easy navigation.
- Developed personalization features, including preferred cuisines and order history, to tailor the user experience.
- Utilized Node.js to build scalable server-side applications, ensuring efficient data handling and real-time updates.
- Integrated third-party APIs to enhance platform functionality, including payment gateways and location-based services.
- Collaborated with cross-functional teams to define and implement new features, improving overall platform performance and user satisfaction.

PROJECTS

AI Mock Interview Application

Developed an AI-powered mock interview application using the MERN stack, Socket.IO, and JWT authentication. Integrated real-time interview simulations, AI-generated questions, and scoring, improving user preparedness for job interviews.

Social Login Integration

Developed and integrated social login functionality (Google, Facebook, Instagram, Twitter) in a Magento-powered platform using PHP and OAuth 2.0, significantly improving user sign-up rates.

Authorized .NET Payment Gateway

Implemented an authorized .NET API for secure payment processing within Magento, integrating multiple payment gateways, including PayPal and credit card options, reducing transaction errors.

Stripe and PayPal Payment Gateway Integration

Developed and integrated Stripe and PayPal payment gateways in Magento, enabling secure credit card transactions, recurring payments, and refunds. Implemented tokenization for PCI compliance, multi-currency support, and seamless checkout. Enhanced subscription management with automated billing cycles, invoice generation, and customer self-service options, improving transaction efficiency and user experience.

Multi-Vendor Marketplace

Developed a multi-vendor marketplace in Magento using PHP, enabling multiple sellers to manage products, orders, and payments. Integrated APIs for shipping, inventory management, and PayPal, increasing vendor sign-ups.

Users and Posts Modal Interaction

Built a React.js and Chakra UI-based application displaying users and associated posts. Users can view details in modals, improving user interaction.

EXTRA-CURRICULAR ACTIVITIES

- Achieved Infosys Web Development Certification, demonstrating expertise in modern web technologies (featured on LinkedIn).
- Consistently ranked among the top participants in the Code Master Test, showcasing strong problem-solving and algorithmic skills.
- Actively participated in tabla performances at cultural events, promoting traditional music.
- Showcased artworks exploring technology and society themes in local galleries.

LEADERSHIP

- Spearheaded the development of 24+ Magento extensions within a year at Weblytic Labs, including payment gateways, shipping methods, and custom functionalities, significantly enhancing the Adobe Commerce Marketplace ecosystem.
