Projects

Vmcare ⧉
In the project, I enhanced the functionality of exporting and importing data from CSV files. Additionally, I improved the editing feature, refining its functionality and correcting any existing issues. These modifications ensure smoother data management processes within the application, empowering users to efficiently manipulate and exchange data in CSV format. By streamlining these essential features, the project offers a more robust and user-friendly experience, enhancing overall usability and effectiveness.
Tools: Node.js, Express.js, JavaScript, Git, MongoDB, O/S: Ubuntu.

Exelon ⧉
I upgraded the CSV export/import features and refined the editing functionality in the project. These enhancements optimize data manipulation, ensuring seamless CSV file operations. Users benefit from improved efficiency and accuracy, elevating the application's performance and usability.
Tools: Node.js, Express.js, JavaScript, Git, MySQL, O/S: Ubuntu.

VM Webchat ⧉
Executed API integration and sustained project maintenance for the web chat platform. Achieved seamless communication between client and server modules. Implemented routine maintenance to uphold system performance and reliability. Resulted in enhanced functionality and improved user experience.
Tools: Node.js, Express.js, JavaScript, Git, MongoDB, O/S: Ubuntu.

Territorial Army ⧉
In this Project Update Static Website to Dynamic Sites including Admin Panel for Client.
Tools: PHP, CodeIgniter (CI), MySQL, JavaScript, jQuery, O/S: Windows.

CIICDT ⧉
In this Project Update Static Website to Dynamic Sites including Admin Panel for Client.
Tools: PHP, CodeIgniter (CI), MySQL, JavaScript, jQuery, O/S: Windows.

GOAF (Multiple Branch Website) ⧉
Tools: PHP, CodeIgniter (CI), MySQL, JavaScript, jQuery, GIT, O/S: Windows.

Piramal Realty ⧉
In This Project Create Complete Website With Admin Panel along with multiple sub project sites.
Tools: Core PHP, HTML5, CSS3, MySQL, JavaScript, jQuery, O/S: Windows.
