ABOUT ME

I'm a Mid Senior Cross Platform Mobile & Desktop Application Engineer. I have 4 years of experience in Mobile & Desktop Application Development with React Native. I'm passionate about building user-friendly and efficient Applications. I seek a new opportunity to utilize my skills in writing clean, maintainable code, collaborating with cross-functional teams, and contributing to the entire development lifecycle.

WORK EXPERIENCE

Mobile application developer

Freelance Projects [01/07/2024 – Current]

Medical Pathology Lab Software

I'm working on Pathology Laboratory Software designed to address modern problems in the field of pathology and propose modern and innovative solutions.

Platforms: Desktop, Mobile (iOS/Android)

- Developed cross-platform (iOS/Android/Desktop) pathology lab software with offline database synchronization, payment gateway integration, and real-time reporting.
- Implemented features for test registration, report generation (including WhatsApp sharing), and statistical analysis of lab performance.

Healthy-Tribe

Contributed to core development of a new application
