

MUSKAN SETIA

Node js Developer

Delhi, India

8383922398

muskan.setia08@gmail.com

PROFILE

- I am a skilled Backend developer (3+ yrs experience) proficient in JavaScript, MongoDB, Express.js, Node.js, Socket.io, firebase, Web sockets and GraphQL. With expertise in Google Maps integration, RESTful APIs, and real-time communication protocols, E Commerce, LMS, I design and build scalable web applications. I excel in Git version control and Jira project management, ensuring efficient collaboration .Prioritizing performance optimization and user-centric design.

EMPLOYMENT HISTORY

❖ **MEAN Stack Developer, Motherson Invenzen X-Lab** Jan 2021 — Mar 2023
Noida

1) VehiTrack

- Vehicle Tracking:** Built a MEAN stack system with Google Maps for live tracking, historical routes, and analytics.
- Backend & Analytics:** Developed APIs for authentication, live tracking, and statistical analysis of vehicle usage.
- AWS Management:** Handled EC2 instances, monitored CPU usage, and optimized performance.

❖ **MERN Stack Developer, Plaxonic Technologies** Apr 2023 — Jul 2024
Noida

1) Developed a comprehensive **Laboratory Information Management System(LIMS)**.

- Full-stack development with **React, Node.js, MongoDB**, integrating **Mapbox, Puppeteer, charts, GraphQL, and third-party APIs**.
- Implemented real-time communication with **Socket.IO** and **optimized performance at database and API levels**.
- Led **documentation, code reviews, and team collaboration** for efficient project management.

2) Developed an **E Commerce** site(Herbal cart).

- Managed **product listings**, categories, attributes, and inventory, with features like **product recommendations and search optimization**.
- Implemented **shopping cart, checkout, and payment gateway integration (e.g., PhonePe)**, handling **discounts, order tracking, and notifications**.
- Developed **user authentication (OAuth, JWT), profile management, and order history**, ensuring **secure transactions and SMS notifications via Twilio**.

❖ **Node js Developer, Flupper Ltd.** Sep 2024 — Jan 2025
Noida

1) Grocery Shop Application.

An e-commerce platform designed to streamline the online shopping experience for customers seeking groceries and household items.

- Developed and optimized** RESTful APIs for customer management, order processing, and payment integration.
- Implemented real-time order tracking** using WebSockets for seamless delivery updates.

2) Gym Panel Management System.

A comprehensive software solution designed to manage gym operations efficiently.

- **Developed and optimized** APIs for membership registration, subscription management, and payment processing.
- **Implemented performance tracking** with analytics for attendance, revenue, and operational insights.
-

3) Developed a **Restaurant App** (Food Delivery & Food Packages)

A dual-purpose platform for food delivery and event packages, offering a detailed restaurant menu with images, descriptions, and pricing.

- **Developed and integrated** secure payment solutions for flexible food ordering and custom meal packages.
- **Implemented real-time order tracking** and restaurant management features for inventory, menu updates, and sales analytics.

EDUCATION

❖ **Manav Rachna International Institute of Research and Studies** Jul 2019 — May 2021
MCA Faridabad

❖ **Hindu Girls College** May 2016 — Apr 2019
BCA Sonapat

❖ **DAV Public School** Apr 2016
12th Delhi

SKILLS

Javascript	Robo3T
MongoDB	Postman
Express.js	Jira Project Management
Node.js	Click Up Project Management
Next js	Swagger
React	Twilio
Angular	GraphQL
HTML/CSS	Socket-io
Tailwind Css	Firebase
RESTful APIs	System Design
Git Version Control	Micro Services
Data Structure	Kafka
Data Visualization Libraries	Docker

LANGUAGES

Hindi English
