Nationality : Indian

FLUTTER DEVELOPER

Experienced Flutter Developer with 2.5 years of expertise in developing high-performance, user-friendly mobile applications. Skilled in Flutter, Dart, Firebase, REST API integration, and state management (BLoC, GetX, Provider). Adept at building scalable applications, implementing WebSocket-based real-time communication, and integrating third-party services. Passionate about delivering seamless UI/UX experiences and continuously learning new technologies.

STRENGTHS AND EXPERTISE

Cross-Platform Development:	Backend Integration	Performance Optimization
State Management	Third-Party Services	Problem-Solving
Self-Learning & Adaptability	Firebase	Crisis Management

PROFESSIONAL EXPERIENCE

UFS Technologies   **Aug 2024 – Present**
Flutter Developer

Worked at UFS Technologies, where I contributed to various projects, including Flutter application development, backend integration with Node.js, and implementing WebSocket-based chat functionality. Gained hands-on experience in state management, API integrations, and real-time communication systems, enhancing both technical and problem-solving skills.

Accomplishments:
- Developed and maintained Flutter applications with backend integration using Node.js.
- Implemented WebSocket-based chat functionality for real-time messaging.
- Worked with state management (BLoC, GetX) and API integrations to optimize performance.
- Enhanced user experience by improving UI animations and responsiveness.
- Collaborated with cross-functional teams to ensure project success.

Festa BPS   **Dec 2023 – June 2024**
Flutter Developer

I'm advancing my career at Festa BPS in Ernakulam, where I've worked as a Flutter developer and successfully used the framework to construct increasingly sophisticated applications.

Accomplishments:
- Built advanced Flutter applications with state management and API handling.
- Upgraded applications with modern UI/UX practices.
- Worked in an agile environment, collaborating with teams to deliver scalable applications.
- Implemented real-time updates and background services for seamless user interaction.

Trippens   **2023**
Flutter Developer

I have been employed at Trippens in Thrissur, where I have worked as a Flutter developer, successfully creating three applications. One of these applications is publicly available on both the Play Store and App Store, while the other two are designed for internal office staff use. Trippens is a tour making company in Thrissur , Kerala .

Accomplishments:
- Developed three applications, including one publicly available on Play Store and App Store.
- Built apps for internal office staff use, improving workflow efficiency.
- Integrated third-party packages and optimized UI for smooth user experience
- Enhanced user experience by improving UI animations and responsiveness.
- Implemented custom animations and transitions to enhance user engagement.

Mubarak Technologies   **2022**
Junior Flutter Developer

The first company I worked for when I first started my career was Mubarak Technologies. I've been able to contribute, demonstrate my abilities, and work on projects with the company while creating apps in accordance with the needs of the client.

Accomplishments:
- Created client-specific mobile applications based on project requirements.
- Worked on feature development and bug fixes to enhance app stability.
- Gained experience in using third-party libraries and API integration.
- Assisted in code refactoring and performance improvements.

EDUCATION

- Bachelor of Business Administration (BBA) – Calicut University (2023)
- Higher Secondary Education – CA Higher Secondary School (2019)
- Self-Taught Flutter Developer: Learned Flutter through online resources, including Google and YouTube.

PROJECTS & CONTRIBUTIONS

- Developed a real-time chat application using WebSocket and Flutter.
- Built a tour booking app with payment gateway integration.
- Contributed to open-source projects on GitHub and GitLab.
