SUMMARY

Full Stack Developer with 1.5+ years of experience building scalable and high-performance web applications using React.js, Next.js, Node.js, and PostgreSQL. Skilled in frontend optimization, RESTful API integration, and creating responsive UI/UX with Tailwind CSS, Redux, and TypeScript. Proficient in Agile methodology, clean code practices, and reusable component architecture. Hands-on experience with AWS, Docker, and basic DevOps for smooth deployment and CI/CD. Looking to contribute to impactful projects in a dynamic MNC environment.

WORK EXPERIENCE

Zeplinix Technologies Pvt Ltd – Software Developer (Pune, India)

Nov 2023 - Present

- Led frontend development using Next.js and Tailwind CSS to build responsive, scalable web applications.
 - Contributed to the Reckitt scorecard system by designing dynamic workflows and enhancing UI performance.
 - Developed reusable components and implemented best practices in code architecture and state management (Redux, Context API).
 - Collaborated with backend teams to integrate RESTful APIs and optimize app speed by 30%.
-

PROJECTS

Reckitt – Supplier Scorecard Management System

Role: Senior Software Developer

Tech Stack: React.js, Next.js, Tailwind CSS, Node.js, Express.js, PostgreSQL, Sequelize, Docker, AWS

- Built a dynamic, multi-tenant supplier scorecard platform to evaluate vendor performance across global supply chains.
- Designed scalable architecture to support future feature integrations with modular code structure.
- Reduced page load time by 35% by optimizing component rendering and API response caching.
- Integrated secure login with JWT and implemented reusable UI components across modules.

HRMS – AI-Based Human Resource Management System

Role: Senior Software Developer

Tech Stack: React.js, Next.js, Tailwind CSS, Node.js, Express.js, PostgreSQL, Sequelize, AWS, Docker, Zoom API, OpenAI

- Developed an AI-powered HRMS platform with features like resume parsing, candidate shortlisting, and interview automation.
- Integrated Zoom API for seamless interview scheduling and participation within the system.
- Implemented AI scoring to evaluate candidates based on skills and experience.
- Built scalable frontend modules for job postings, applicant tracking, and evaluation dashboards.
- Boosted recruitment efficiency by 40% through intelligent automation and role-based access control.

ERP – SaaS-based Enterprise Resource Platform

Role: Junior Software Developer

Tech Stack: React.js, Node.js, Express.js, PostgreSQL, RESTful APIs

- Developed and maintained modules for inventory, sales, and warehouse monitoring.
- Improved API performance through optimized queries and lazy loading strategies.
- Ensured secure backend communication with JWT-based authentication.
- Enhanced overall user experience with dashboard-level insights and seamless navigation.

Zeplinix Website – Company Portfolio Website

Role: Junior Frontend Developer

Tech Stack: Next.js, Tailwind CSS, TypeScript, GSAP

- Built a modern, responsive website to showcase Zeplinix’s SaaS products and services.
- Implemented smooth animations using GSAP for interactive sections.
- Ensured cross-browser compatibility and responsive design across all screen sizes.
- Achieved Lighthouse performance score of 90+ on deployment.

301io Website – AI/ML & Enterprise Solutions Showcase

Role: Junior Frontend Developer

Tech Stack: React.js, Tailwind CSS, TypeScript

- Developed responsive pages highlighting 301io’s AI/ML and data analytics capabilities.
- Integrated service features such as dynamic service filters, call-to-action components, and testimonials.
- Enhanced SEO by implementing meta tags and structured content.
- Increased page engagement by 25% with better UX design and layout flow.

SKILLS

- Frontend Technologies : React js , Next js, Javascript,HTML,CSS Typescript , Tailwind, GSAP,Redux , Sass
- Backend Technologies : Node.js, Express.js, Restful Api’s, JWT , Sequelize ORM, Microservices
- Database Technologies : Postgre Sql, My Sql , Mongo DB.
- Tools : Git, GitHub Actions, Docker.
- Other Skills : AWS (EC2, S3, Route53, RDS, EBS, CloudWatch), Agile Methodology

CERTIFICATIONS:

- Explore App Development with the MERN Stack - LinkedIn (2025)
- Full Stack Developer Certification - Profound Edutech PVT LTD (2023)
- Full Stack Developer Certification - TATA Strive (2023)
- Google It Automation - Google Learning (2022)
- Introduction to IOT - Cisco (2022)

EDUCATION

Bachelor’s Of Computer Application (BCA)

Saraswati College of Bca and Mca

- Specialization in Computer Applications.
- Studied Software Development and Web Application Developement.

Higher Secondary Education - Science Stream

Burungle College

- Engaged in advanced coursework in scientific principles, analytical reasoning, and problem-solving methodologies..

Secondary Education

Swami Vivekanand English School

- Developed a robust understanding of foundational concepts in mathematics, physical sciences, and humanities.

2020 - 2023

2018 - 2020

2017 - 2018
