

SAYYID MARVAN VT

FULL STACK DEVELOPER

Dubai, UAE (Valid Visiting Visa)

PROFESSIONAL PROFILE

Junior Full Stack Developer trained in **MERN stack** technologies. Building production-ready applications with React, Node.js, and MongoDB. Currently expanding skills in TypeScript and cloud technologies. Available for **immediate joining in Dubai**.

EXPERIENCE

Full Stack Development Intern | CipherByte Technologies – Remote July 2024 – Aug 2024

- Developed backend features including CRUD operations and JWT authentication
- Implemented MongoDB database schemas and REST API endpoints
- Solved frontend-backend integration challenges through self-guided learning

MERN Stack Trainee | Mentorow Technology – Kochi, India Oct 2023 – Apr 2024

- Developed full-stack applications with React frontend and Node.js backend
- Core implementations:
 - RESTful APIs with MongoDB/Mongoose integration
 - JWT authentication and protected routes
 - React components with state management

EDUCATION

B.E. Computer Science June 2019 – June 2023

Visvesvaraya Technological University - Bengaluru

TECHNICAL PROFICIENCIES

- **Languages:** JavaScript (ES6+), TypeScript (Learning)
- **Frontend:** React.js, Redux Toolkit, HTML5, CSS3, Tailwind
- **Backend:** Node.js, Express, REST API Development
- **Databases:** MongoDB, Firebase
- **DevOps Tools:** Git, Docker (Learning), GitHub Actions

PROJECTS

Foodeli (Food Delivery Demo)

[Live](#)

- Self-designed MERN stack implementation with core e-commerce features:
 - Shopping cart persistence using local storage
 - Basic search functionality through product array filtering
 - Real-time order updates via Socket.IO connections
- Integrated Stripe payment processing
- Security: Express rate limiting for authentication endpoints
- **Tech Stack:** React, Node.js, Express, MongoDB, Socket.IO

Crown-Clothing (E-Commerce Demo)

[Live](#)

- React e-commerce platform with Stripe integration
- Firebase authentication and Redux state management
- **Tech Stack:** React, Redux, Firebase, SCSS

Exedo Estate (Real Estate Demo)

[Live](#)

- Created property search with multiple filtering options
- Implemented JWT authentication and CRUD operations
- **Tech Stack:** React, Redux Toolkit, Node.js, MongoDB

PROFESSIONAL DEVELOPMENT

- Complete React Developer (Udemy) - 2025
- Software Engineering Simulation (Forage) - 2024

PERSONAL DETAILS

- **Nationality:** Indian
- **Languages:** English (Professional), Malayalam (Native)
- **Visa Status:** UAE Visit Visa
- **Availability:** Immediate
