## EXPERIENCE

### PLUSINFOSYS | REACT NATIVE DEVELOPER

Aug 2023 - Present, 1 Year 9 Months | Ahmedabad

- Developed A Korean farm management app that tracks plot allocation and transfers, with Admins overseeing fields and performance, while Users manage their own plots.
- Developed A video editing app that lets users create, merge, and enhance short videos with filters, offering basic features for free and advanced tools with a premium subscription.
- Developed A collaboration tool to manage projects professionally with roles like Project Manager, Team Member, Requester, Sponsor, Stakeholder, and Assistant Project Manager.
- Mentored two trainees, helping them transition into React Native development. Provided training sessions on JavaScript, React Native, and Libraries fundamentals.

### PLUSINFOSYS | INTERN

Jan 2023 – Aug 2023, 6 Months | Ahmedabad

- Learned and applied technologies including JavaScript, redux, android, xcode, and React Native to create user-friendly.
- Gained hands-on experience in Mobile App development and design, enhancing skills in frontend technologies.
- Explored various aspects of Mobile development, including user interface design, responsiveness, and different mobile platforms.
- Developed proficiency in project management by creating an online fruit shopping store.

## PROJECTS
