UMESH KUMAR

IT TECHNICAL PROJECT MANAGER

I'm a dedicated and results-driven IT Project Manager & Consultant with over 8 years of experience in the software industry, having successfully delivered 40+ web and mobile app projects across diverse domains. My background includes hands-on involvement in project planning, execution, UI/UX collaboration, development coordination, and team management.

I've independently worked across technical and business departments—including web and app development, SEO/SMO, and client communication—bringing a well-rounded perspective that ensures seamless project delivery from start to finish. I excel in requirement gathering, stakeholder management, agile project execution, and cross-functional team leadership.

Known for my ability to manage timelines, budgets, and quality standards, I take pride in delivering solutions that meet client expectations while keeping teams aligned and motivated. My approach is structured, client-focused, and outcome-oriented—driving project success through clear communication, proactive problem-solving, and strong attention to detail.
